

# Precinct Statement

Adopted 24 September 2012, updated October 2013

## DESCRIPTION

Precinct 47 contains two small pockets centred around Varzin Avenue, Delta Street and Alastair Court in Surrey Hills. A Victorian era Italianate, two storey heritage house (H0190) known as Medlow is located at the end of Varzin Avenue.

The properties on the south side of Varzin Avenue back on to open space, most of which is on private property and contains a concentration of native trees which create a natural feel. Due to the sloping topography lots are varied in shape and width.

The majority of housing in the precinct is detached and 1 and 2 storeys in height. Most dwellings were constructed post-1980.

While the siting of dwellings varies due to the irregular terrain, most are surrounded by dense vegetation planted on the nature strips and in front and side setback areas and, therefore, integrate within the area's natural setting. Lot frontages are generally wide at between 15m to 20m.

Some properties have no front fences whilst others have fences that vary from low to medium in height.

Building materials vary from masonry to timber. While most dwellings have pitched roofs, flat roof forms are present as well.

The sloping terrain, and surrounding native trees and vegetation provides the precinct with a bushland quality.

# Design Guidelines

## KEY CHARACTERISTICS

- Majority of building stock constructed after 1980;
- Detached, 1 and 2 storey dwellings;
- Slopping terrain close to an open space reserve;
- Treed nature strips;
- Generally densely planted front gardens;
- Dwellings integrated within the natural setting; and
- Variety of front boundary treatments from no fences, to low and medium fence heights.

## PREFERRED CHARACTER STATEMENT

To facilitate contemporary design that integrates within the precinct's natural setting. This will be achieved by:

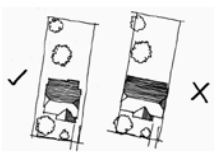

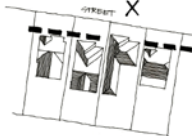

- Encouraging the retention of large trees and landscaped gardens;
- Ensuring sufficient space is retained in front and rear gardens to accommodate large trees;
- Ensuring new developments and additions are sited and designed to integrate within the surrounding landscape;
- Maximising soft landscaping and minimising areas of hard surfaces; and
- Encouraging no or low front fences.

## THREATS/ISSUES

- Lack of soft landscaping / vegetation;
- High front fences that disrupt the rhythm of the street;
- Removal / loss of large trees, particularly natives; and
- Large or brightly coloured buildings that detract from the natural feel of the area and adjoining parklands.

# Design Guidelines

## TABLE OF ELEMENTS

CHARACTER ELEMENT	OBJECTIVE	DESIGN RESPONSE	AVOID	ILLUSTRATION
<b>VEGETATION</b>	<ul style="list-style-type: none"> <li>To maintain and enhance the landscaped setting of dwellings.</li> </ul>	<ul style="list-style-type: none"> <li>Ensure front gardens incorporate soft landscaping that complements the streetscape, including native plantings.</li> <li>Ensure the retention of large trees.</li> </ul>	<ul style="list-style-type: none"> <li>Removal of large trees.</li> <li>Front gardens dominated by hard surfaces.</li> <li>Loss of front gardens.</li> </ul>	 <p><i>Encourage landscaped gardens</i></p>
<b>SITING</b>	<ul style="list-style-type: none"> <li>To ensure dwellings integrate within their surrounds and do not dominate the streetscape.</li> <li>To maintain the existing backyard character and leafy, natural feel.</li> </ul>	<ul style="list-style-type: none"> <li>Ensure buildings are setback from front and side boundaries to integrate with the streetscape and surrounding natural setting.</li> <li>Ensure buildings are sufficiently setback from rear boundaries to maintain the open, backyard character of the immediate area where this exists.</li> <li>Provide a secluded private open space area with a minimum dimension of 4m to enable the planting and retention of large trees.</li> <li>Ensure new development on a corner site is adequately set back to provide a transition between the adjoining buildings.</li> </ul>	<ul style="list-style-type: none"> <li>Dwellings set too far forward.</li> <li>Dwellings built too close to their rear boundary with other residential properties.</li> </ul>	 <p><i>Side setbacks</i></p>  <p><i>Front setbacks</i></p>  <p><i>Siting on corner sites</i></p>
<b>BUILDING HEIGHT AND FORM</b>	<ul style="list-style-type: none"> <li>To ensure buildings integrate with the precinct's treed, landscape setting and do not dominate the streetscape.</li> </ul>	<ul style="list-style-type: none"> <li>Ensure buildings integrate with the prevailing scale and form of houses in the street and sit comfortably within the tree canopies in the immediate area.</li> <li>Ensure development follows the contours of the land and steps down in accordance with the slope of the site.</li> </ul>	<ul style="list-style-type: none"> <li>Large bulky buildings or extensions that dominate the streetscape.</li> <li>Buildings that exceed the height of tree canopies in the area.</li> </ul>	 <p><i>Integrate with treed setting</i></p>
<b>BUILDING MATERIALS AND DESIGN DETAILS</b>	<ul style="list-style-type: none"> <li>To ensure building materials integrate within the precinct's natural setting while facilitating innovative design.</li> </ul>	<ul style="list-style-type: none"> <li>Ensure use of muted colours and building materials which integrate with the landscaped setting of the precinct.</li> <li>Ensure use of contemporary design in preference to period reproduction styles.</li> </ul>	<ul style="list-style-type: none"> <li>Bland design such as sheer or plain rendered facades.</li> <li>Bright colours that stand out amongst the natural setting of the area.</li> </ul>	 <p><i>Avoid bland design</i></p>

# Design Guidelines

CHARACTER ELEMENT	OBJECTIVE	DESIGN RESPONSE	AVOID	ILLUSTRATION
<b>FRONT BOUNDARY TREATMENT</b>	<ul style="list-style-type: none"> <li>To maintain the existing open character of streetscapes.</li> </ul>	<ul style="list-style-type: none"> <li>Require no or low front fencing in accordance with the prevailing streetscape character.</li> </ul>	<ul style="list-style-type: none"> <li>High solid front fences.</li> </ul>	 <p>Avoid high front fences</p>
<b>CAR PARKING STRUCTURES</b>	<ul style="list-style-type: none"> <li>To ensure basement garages do not increase the visual bulk of buildings.</li> </ul>	<ul style="list-style-type: none"> <li>Ensure basements project no more than 0.5m above natural ground level, unless the finished floor level of abutting properties is greater than 0.5m.</li> <li>Where possible, locate the entry to basement garages to the side or rear of dwellings so they are not visible from the street.</li> </ul>	<ul style="list-style-type: none"> <li>Basement ramps that commence at the street frontage.</li> <li>Basement garages that result in buildings with a 2.5 to 3 storey appearance from the street.</li> </ul>	

# General Information

## ABOUT THE NEIGHBOURHOOD CHARACTER STUDY

This Precinct Statement was completed in 2012. The methodology involved a review of the Residential Urban Character Study from 1996 as well as substantial community consultation and fieldwork. As a result of this review the City's residential areas have been divided into 75 precincts.

The common characteristics of each area in terms of building scale, setbacks, building style and form and the area's landscape character were taken into account when determining the boundaries of each precinct.

The resulting Neighbourhood Precinct Character Statements describe the existing character of each precinct as well as the precinct's preferred future character.

Those characteristics most valued by the community were reflected in the preferred character statements. The accompanying design guidelines table provides direction for new buildings which ensure future development assists in achieving the area's preferred character.

The Boroondara Neighbourhood Character Study is based on an analysis of existing neighbourhood character and does not take into account other planning policy objectives such as housing capacity, access to services and sustainability.

## HOW THE PRECINCT STATEMENTS WILL BE USED

The Precinct Statements will be used when assessing planning permit applications in residential zones. In instances where no planning permit is required (e.g. for single dwellings on lots over 500m<sup>2</sup>), the Precinct Statements will be used when assessing report and consent applications to vary the siting requirements of the Building Regulations.

New development proposals will be assessed against the directions contained in the "objective", "design response" and "avoid" columns in the design guidelines Table of Elements. Proposals will need to demonstrate how they meet the objectives in the table if they do not meet the relevant "design response" or "avoid" criteria.

With the exception of the guidelines relating to rear garden character, the view from the street will be used to assess consistency with the design guidelines. Existing development that does not comply with the design guidelines should not be used as a precedent when designing new buildings or building extensions.

## RELATIONSHIP TO OTHER POLICIES AND GUIDELINES

The Precinct Statements will be used in conjunction with other policies and guidelines in the Boroondara Planning Scheme.

Where a conflict occurs between the Precinct Statements and an existing Design and Development Overlay or Council's Heritage

Policy, the provisions of the Design and Development Overlay or Council's Heritage Policy will take precedence.

# Glossary

## CHARACTER ELEMENTS IN DESIGN GUIDELINES TABLE OF ELEMENTS

- **Building Height and Form** – refers to building height (as measured from natural ground level), roof form and the massing of building elements.
- **Building Materials and Design Details** – refers to external building materials, façade articulation and design elements such as verandahs, awnings, window configurations and eaves.
- **Car Parking Structures** – refers to the presence and location of on-site car parking structures such as garages, carports, driveways and uncovered car spaces.
- **Front Boundary Treatment** – refers to the presence, height and style of front fences.
- **Lot Frontage** – refers to the width of lots.
- **Siting** – refers to front setbacks, side setbacks and the area's rear garden character.
- **Vegetation** – refers to the trees and landscaping on the site.

## GENERAL TERMS

- **'Box'-like** – refers to a building with proportions and detailing that give the building a box-like appearance. Typical characteristics include sheer two storey walls, no or narrow eaves, a symmetrical, un-articulated front facade and a low pitched or flat roof form with parapet detailing.
- **Historic Buildings** – refers to early buildings that date from the establishment of the area or that are important to the area's history.
- **Heritage Buildings** – refers to historic buildings that are subject to statutory protection through a Heritage Overlay or the Victorian Heritage Register.
- **Period Reproduction Design** – refers to design that incorporates mock heritage detailing such as Mock-Georgian and Mock-French Provincial elements.
- **Front Setback** – The distance between the front property boundary and the dwelling, categorised as:
  - **Small:** 0 to 5 metres
  - **Medium:** 5 to 9 metres
  - **Large:** 9+ metres
- **Front Fence Height:**
  - **Low:** 0.5 to 1.2m high
  - **Medium:** 1.2m - 1.5m high
  - **High:** over 1.5m high
- **Roof Forms:**
  - **Flat** – refers to a roof with a gradient of 10 degrees or less.
  - **Pitched** – refers to a roof with two slopes that meet at a central ridge.
- **Multi-Unit Dwellings:**
  - **Flats / Apartment Buildings** – refers to several dwellings contained in a multi-storey structure.
  - **Town Houses** – refers to dwellings of 2 or more storeys that have their own entrance and private yard, but which adjoin another dwelling.
  - **Villas** – refers to groups of dwellings which have their own entrance and private yard, which may or may not adjoin another dwelling, but which generally share common areas such as driveways and car parking.
