## Introduction

The Budget 2021-22 has been prepared in-line with Council's commitment to sustainable budgeting, responsible financial management and the State Government's rate cap for 2021-22.

The COVID-19 pandemic made 2020 a challenging time for Boroondara residents, businesses, community groups and the wider community. Despite the challenges of the pandemic, we will continue to deliver what we promised, while balancing the needs of our diverse community into the future.

COVID-19 has had a significant impact upon Council's resources. For the first time in its history, Boroondara will be in a deficit for the 2020-21 year. While there is a clear and responsible path to recovery, the total estimated net loss of \$28 million (over financial years 2019-20 and 2020-21) creates a challenging circumstance for Council. As our population grows the demand for services increases and the impact of the state government's rate cap makes no allowance for this. The state government does not apply any such limitation to itself.

The Budget 2021-22 continues Council's investment to progress several important projects. We have made substantial headway on the redevelopment of Kew Recreation Centre with the project expected to be completed by 2022-23. As part of the Canterbury Community Precinct, we are restoring and developing the existing buildings in Canterbury Gardens, with construction due to be completed by mid to late 2022. These facilities will provide much needed services for our community as we emerge from this challenging period.

We have made significant progress on the placemaking project for Maling Road in Canterbury, with construction to commence for the laneway upgrades in 2021-22. Council will also commence the development of a new structure plan for Camberwell Junction, designed to increase social interaction and economic viability.

Another feature of the Budget 2021-22 centres on our commitment to improving Boroondara's environmental sustainability, with key initiatives designed to minimise our impact on the environment and provide a healthier, more sustainable future for our city.

As always, we are allocating funding to our many magnificent parks and sportsgrounds, and the maintenance of Boroondara's infrastructure including buildings, footpaths and shared paths. Council's ongoing commitment to the environment and climate change continues in this budget through the maintenance of current programs and the addition of new measures.

We continue to invest in vital services such as aged care, disability and health, libraries, family, youth, recreation and more.

Further details of some of the projects and services this budget delivers are outlined below.

Council's commitment to providing quality infrastructure remains a high priority, with the delivery of \$102 million of renewed and new community assets in the coming year.

Council will undertake significant major projects in 2021-22 which are to be completed over the next few years. Some of these include:

- Kew Recreation Centre redevelopment (\$68.0 million over four years, completed in 2022-23).
- Canterbury Community Precinct (\$11.3 million completed in 2021-22).

Some other exciting commitments include:

- \$3.61 million on a range of environmental initiatives including:
  - \$2.2 million to implement our Sustainable Council Building Policy requirement to deliver a minimum 5 Star Green Star equivalent standard for all new buildings and applicable retrofits.
  - \$400,000 to reduce greenhouse gas emissions including LED lighting and heating and cooling upgrades.
  - \$420,000 to support our ongoing park and street tree renewal program.

- \$266,100 to enhance and maintain urban biodiversity across the municipality by implementing initiatives including the Backyard Biodiversity project, Wildlife not Weeds program, interpretive signage and to extend the areas of Boroondara which are actively managed for their significant biodiversity values.
- \$240,000 for additional street tree planting.
- Upgrading of our sporting pavilions to ensure they are accessible for everyone in our community including Canterbury Sportsground Pavilion (\$2.0 million) and Rathmines Reserve Pavilion (\$1.5 million)
- \$2.3 million for a regional playground at Victoria Park.

Council will continue to maintain infrastructure at an appropriate standard. In 2021-22 Council will deliver:

- \$4.5 million for drainage renewal.
- \$3.1 million on footpath and cycleway renewal.
- \$11.2 million on road renewal.
- \$10.9 million for 30 other community building renewal works and minor works across many of the other properties under Council stewardship.

Council's high level of service provision to residents will continue. These services include expenditure of:

- \$9.4 million to provide library services seven days a week.
- \$8.3 million on aged care support for vulnerable members of our community.
- \$8.7 million on health and wellbeing services including immunisation, youth and recreation services.
- \$19.7 million for parks and gardens, biodiversity and street trees maintenance.
- \$3.0 million on arts and cultural services and events.
- \$11.1 million for planning, development and building controls.
- \$10.3 million for maintenance of the city's infrastructure including buildings, drainage, footpaths, roads and shopping centres.

The availability of open space for passive and active recreation is a limited resource for the city and to that end, Council sets aside \$800,000 each year for the open space acquisition fund which is designed to acquire additional open space as the opportunity arises.

Council will also continue its investment in a number of transformation projects that will enhance the way we provide services to our community and place the customer at the centre of everything we do (\$14.04 million). These projects will continue to provide increased choice and convenience of services and ways of interacting with Council. This will enable customers to connect with us anytime, in their preferred way, using any device and receive a consistent customer experience. This program will create more efficient use of Council resources and has already delivered \$2.86 million in labour savings.

As our city begins to recover from the impacts of COVID-19, the Budget 2021-22 will ensure that Boroondara remains a vibrant, inclusive city, one in which our community feels proud to live.

## Executive summary

Council has prepared a Budget for 2021-22 which is aligned to the community vision in the Council Plan according to the priority themes in the Boroondara Community Plan 2017-27. The Budget seeks to maintain and improve services and infrastructure as well as deliver projects and services that are valued by our community. This has to be done within the constraints of a State Government imposed cap on Council's revenue which has no regard for the significant loss of revenue (estimated total net loss of \$28 million over years 2019-20 and 2020-21) due to COVID-19 and the additional demands placed upon Council by a growing population. The State Government does not impose these constraints upon itself.

The COVID-19 pandemic made 2020 a challenging time across many in our community. Equally for Council, the 2021-22 Budget has been developed in a period of continued uncertainty in relation to the COVID-19 pandemic. Despite the challenges, we continue to deliver what we promised while balancing the needs of our diverse community.

The 2021-22 Budget projects a return to surplus of \$9.01 million which is an improvement of \$16.92 million from the 2020-21 Forecast. The Budget is largely based on a post COVID-19 recovery of normal activity levels and continues to be closely monitored in line with current COVID-19 developments. Boroondara's strong financial management resulting in a positive year end result is critical in enabling Council to address the ongoing requirement for asset renewal to ensure Council's facilities meet community needs.

The 2020-21 full year forecast result estimates a further \$7.20 million reduction in budgeted revenue by 30 June 2021 compared to the September Amended Budget 2020 bringing the total net loss of revenue and expenditure impacts for the year to \$18.6 million. The reduction is due to the continuing impacts of COVID-19 on the 2020-21 year primarily in User Fees and Statutory Fees and Charges. The second half of 2020-21 continues to be a slow but gradual resumption of normal activity reaching something near full capacity by 30 June 2021.

The 2021-22 Budget adjusted underlying result is a deficit of \$3.29 million after adjusting for capital grants and contributions. The adjusted underlying result for the four year budget returns to normal surplus levels from 2022-23.

Ongoing delivery of services to the Boroondara community has a budgeted expenditure of \$255 million. These services are summarised in **Section 2**.

In 2021-22 Council will continue to invest in infrastructure assets (\$101.59 million) consisting primarily of renewal works (\$64.14 million) and new asset creation (\$37.44 million). This includes roads (\$11.20 million); footpaths and bicycle paths (\$3.11 million); drainage (\$4.54 million); recreational, leisure and community facilities (\$3.72 million); parks, open space and streetscapes (\$6.49 million); and buildings (\$62.67 million). The Statement of Capital Works can be found in **Section 4** and further details on the capital works budget can be found in **Section 7** and **Appendix D**.

As our City begins to recover and revive from the impacts of COVID-19, this Budget will ensure that Boroondara remains a vibrant, inclusive City, one in which our community feels proud to live.

### The rate rise

The Minister for Local Government has determined that for 2021-22 the average property rate will rise by 1.50%. Boroondara City Council will not be seeking a variation to the rate cap.

Boroondara City Council has moved from biennial to annual valuations in line with the State Government changes introduced from 1 July 2018. The valuation function is now centralised with the Valuer-General. Valuations will be as per the General Revaluation dated 1 January 2021 (as amended by supplementary valuations). The outcome of the general revaluation has been a change in property valuations throughout the municipality. Overall, property valuations across the municipal district have increased by 2.47%. Of this increase, residential properties have increased by 2.70% and non-residential properties have decreased by 0.83%.

Due to the impact of the revaluation in the 2021-22 year, the rate percentage charged on individual properties will not be a consistent 1.50%. It is important to note that when a revaluation is carried out, the total rate revenue that accrues to Council remains unchanged (i.e. Council does not make any additional revenue). What a revaluation does however is to redistribute the rates between properties. Where individual property valuations increase by more than the average valuation movement throughout the municipality - a higher rate increase than the overall rate increase for the municipality will be applicable. Conversely, where the change in valuation is lower than the average movement - rate increases will be below the average rate increase for the entire municipality.

Despite the significant benefits arising from Council's introduction of the Food Organics Garden Organics waste service, charges in 2021-22 will increase on average by 6.5%. This is mainly due to the increase in State Government Landfill Levy which is expected to increase by 60.6% from \$65.90 to \$105.90 per tonne in 2021-22 (an increase of \$1.04 million) and then to \$125.90 in 2022-23.

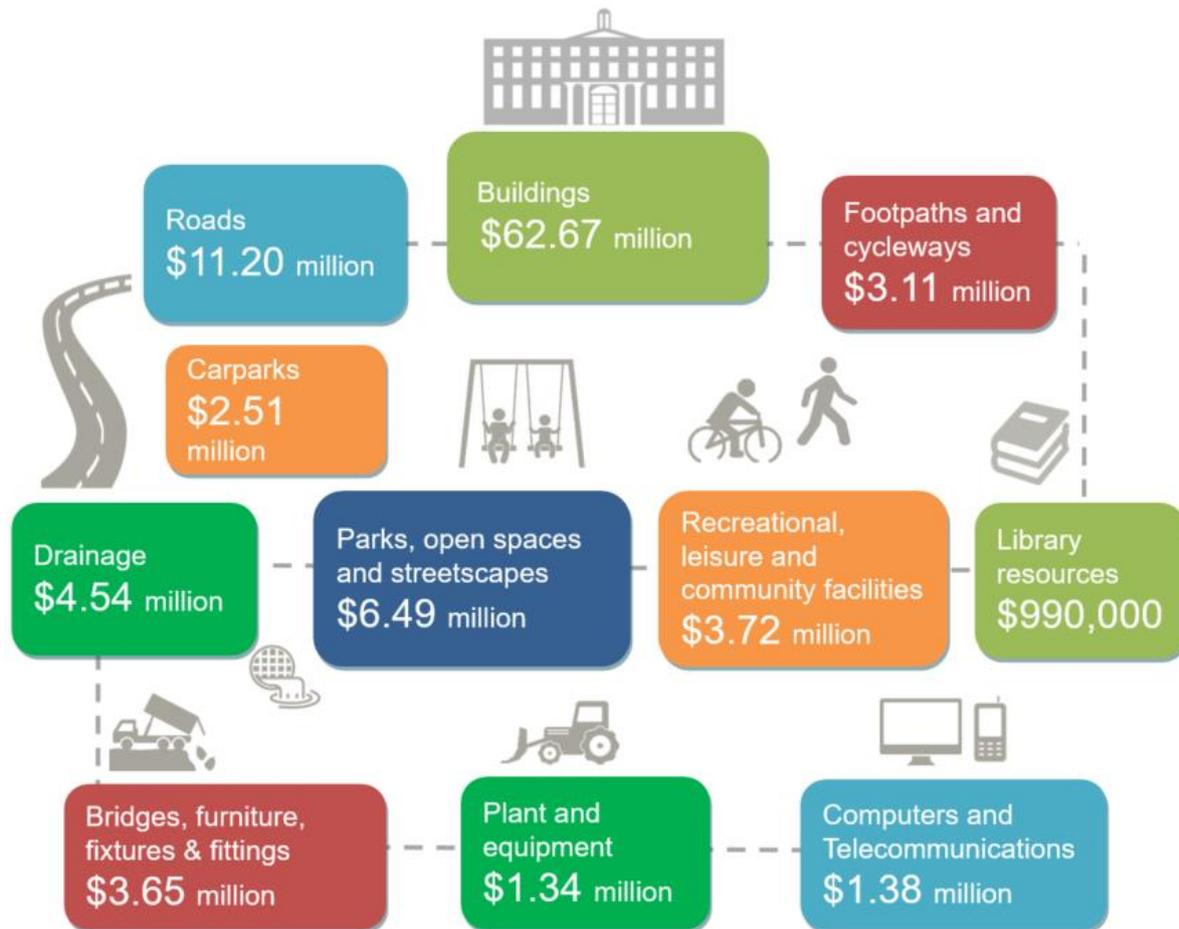

The net costs of waste management and associated services are recovered by Council through the waste management charges.

Further information on Rates and Charges can be found in **Section 8** and **10** within this document.

## Capital Works Program

## Budget influences

### External influences

The preparation of the Budget is influenced by the following external factors:

- COVID-19 has presented a fast-evolving significant challenge to businesses, households, and the economy worldwide. Council has acted in the interest of keeping our community, residents and workforce safe.

Across the 2019-20 and 2020-21 financial years, the forecast estimate for the impact of the pandemic is now a net loss of \$28 million. The impacts are a mix of decisions made by Council to provide community relief and outcomes that are not under Council's control.
- The 2021-22 Budget is based on a rate capped average increase in Council rates of 1.50 per cent as prescribed by the State Government. Previous forecasts by the Department of Treasury and Finance had suggested the CPI which informs the rate cap set by the state government would be 2% and Council's long term financial plan had adopted this expectation. The rate cap ultimately applied by the state government is clearly below this resulting in less revenue than had been anticipated.
- Council has applied an inflation rate of 1.50% for 2021-22 which has been derived from the Victorian Department of Treasury and Finance forecasts as part of the mid-year Victorian budget review which is aligned with the commencement of budget preparation.

- The Victorian Government announced it will extend the deferral of the increase to State Government Landfill Levy to 1 July 2021 (previously January 2021) as part of an acknowledgment of COVID impacts. The landfill levy is expected to increase by 60.6% or \$40.00 per tonne from \$65.90 to \$105.90 per tonne in 2021-22 (an increase of \$1.04 million) and then to \$125.90 in 2022-23.
- Financial impacts of COVID-19 will not immediately cease in 2020-21. Interest on investments continues to be significantly impacted for the 2021-22 Budget. We are currently experiencing a low interest rate market. The fallout from COVID-19 and the continued impact on the Australian economy will continue to put greater pressure on investment income for Council and the Local Government sector. Investment income in the 2021-22 budget is expected \$2.2 million lower than Council's typical return.
- Local Authorities Superannuation Fund Defined Benefit Plan (LASF DB) - Vested Benefit Index (VBI) update (COVID-19) – Vision Super has reported the impact of COVID-19 has continued to cause significant volatility in investment markets around the world. Vision Super will continue to monitor the plan's financial position. In the event the VBI falls below the nominated shortfall threshold (ie: 97%), an interim investigation is required to be carried out by the Fund Actuary, unless the next scheduled actuarial investigation is due within six months. As at 31st December the VBI was 109.6%.
- Ongoing cost shifting. This occurs where Local Government provides a service to the community on behalf of the State and Federal Government. Over time the funds received by Local Governments do not increase in line with real cost increases.
- The Fire Services Property Levy will continue to be collected by Council on behalf of the State Government with the introduction of the *Fire Services Property Levy Act 2012*.
- Capital works grant funding of \$7.94 million with the most significant being \$5.21 million from the Federal Government for the Local Roads and Community Infrastructure (LRCI) Program to deliver priority road and community infrastructure projects. In addition to this, \$720,000 State Government funding from the Department of Education and Training for Canterbury Community Precinct (second instalment of \$1.16 million) and \$593,811 Roads to Recovery Program funding covering roads pavement renewal works.

### Internal influences

As well as external influences, there are also a number of internal influences which are expected to have an impact on the preparation of the 2021-22 Budget.

- At the end of each financial year there are projects which are either incomplete or have not commenced due to circumstances including planning issues, weather delays and extended consultation. Other influences include the impacts of COVID-19 restrictions on the timing and delivery of projects. The below forward commitments have been identified to be undertaken in 2021-22:
  - \$15.17 million in 2020-21 capital works forward commitments, and
  - \$9.98 million in 2020-21 priority projects forward commitments.
- Employee costs are largely driven by Council's Enterprise and Local Area Work Place Agreements (EA and LAWA). An annual increase of 1.5% has been applied to the 2021-22 Budget. In 2021-22 the compulsory Superannuation Guarantee Scheme (SGC) will increase from 9.50% to 10.00%.
- Waste collection costs in 2021-22 will increase on average by 6.5%. The Victorian Government announced it will extend the deferral of the increase to the municipal and industrial landfill levy to 1 July 2021 (previously January 2021), which is set to increase in 2021-22 from \$65.90 to \$105.90 per tonne (an increase of \$1.04 million in 2021-22) and then to \$125.90 in 2022-23. The net costs of waste management and associated services are recovered by Council through the waste management charges.
- Continued investment of resources in the Transforming Boroondara project which will enhance our customers experience and improve efficiency of Council in the future (\$14.04 million).

# 1. Link to the Integrated Planning and Reporting Framework

## 1.1 Integrated Planning and Reporting Framework

The Boroondara Community Plan 2017-27 sets the community vision and long-term strategic direction for Council based on the values, aspirations and priorities the Boroondara community told us were important to them. Council is currently undertaking a deliberative engagement process to refresh the Boroondara Community Plan which will be brought to Council for adoption in October 2021. As shown in the diagram below, the Boroondara Community Plan directly informs the Council Plan, the 10 year Financial Plan, 10 year Asset Plan, Budget (1+3 years), and Council strategies, plans and initiatives.

The Boroondara Community Plan 2017-27 and Council Plan 2017-21 are structured around seven themes and describes the outcomes Council aims to achieve during its term, and the allocation of resources required to achieve those outcomes. Underpinned by our vision and values, the Plan's strategic objectives and strategies give clear areas of focus.

The 10 year Financial Plan is the key tool that assists the strategic planning and decision-making process for Council's financial resource allocation over a 10 year period. The Plan provides a mechanism for Council to inform the Boroondara community of the long-term viability and financial health of the City.

The 10 year Asset Plan will set out the provision of new assets and those exiting ones that require renewal or upgrade. Council want to continue to provide great facilities for our community to use, and also ensure our assets are sustainably managed for future generations.

The Council Plan is developed every four years in accordance with the legislative requirements in the *Local Government Act 2020*. The Council Plan 2017-21 is currently being reviewed alongside the Boroondara Community Plan deliberative engagement process and a new Council Plan 2021-25 will be developed and brought to Council for adoption in October 2021.

The Budget sets out Council services, initiatives and major initiatives that Council will undertake in the 2021-22 year, along with associated performance indicators (refer **Section 2 - Services and service performance indicators**). This budget has been prepared utilising the Council Plan 2017-21 and the Stage 1 deliberative engagement results from the Boroondara Community Plan refresh consultation with the community.

## 1.2 Our vision, purpose and values

Our vision represents our commitment to the community as outlined in the Boroondara Community Plan. Our purpose and values describe how we will work together to achieve our goals for the community.

### Vision

A vibrant and inclusive city, meeting the needs and aspirations of its community.

### Purpose

We work together to deliver the community priorities and place our customers at the centre of everything we do.

### Values

We will create a collaborative and customer-centric culture which connects our people to our purpose, inspires them to be their best, and provides a great place to work.

The six organisational values are outlined below:

Our values	What it means
<b>Think customer experience</b>	Always working with our customers' experience in mind and taking pride in supporting our community.
<b>Act with integrity</b>	Doing the right thing, speaking up when it's important and striving to live our values every day.
<b>Treat people with respect</b>	Valuing each person for who they are by listening, understanding and showing that we care.
<b>Work together as 'one'</b>	Working together constructively to break down silos, putting our shared needs first and moving forward in a unified way.
<b>Explore better ways</b>	Challenging the status quo to improve things through curiosity, courage and learning.
<b>Own it, follow through</b>	Taking responsibility for what is ours and following through to ensure great results.

### 1.3 Strategic objectives

The Council Plan is structured around seven priority themes, aligned with the community priorities set out in the Boroondara Community Plan. Each priority theme has a set of strategic objectives, strategies and strategic indicators to support the implementation of the community's vision.

The 2021-22 Budget documents a number of commitments that will occur over the 2021-22 financial year, and provides the financial and human resources necessary to deliver these services and commitments.

The following table lists the seven priority themes and strategic objectives as detailed in the Council Plan.

Theme	Strategic Objectives
 <b>Your Community, Services and Facilities</b>	Community services and facilities are high quality, inclusive and meet a variety of needs now and into the future.
 <b>Your Parks and Green Spaces</b>	Inviting and well-utilised community parks and green spaces.
 <b>The Environment</b>	Our natural environment is healthy and sustainable for future generations.
 <b>Neighbourhood Character and Heritage</b>	Protect the heritage and respect the character of the City to maintain amenity and liveability whilst recognising the need for appropriate, well-designed development for future generations.
 <b>Getting Around Boroondara</b>	Travel options that are connected, safe, accessible, environmentally sustainable and well-designed.
 <b>Your Local Shops and Businesses</b>	A vibrant local economy and shops that are accessible, attractive and a centre of community life.
 <b>Civic Leadership and Governance</b>	Ensure that ethical, financial and socially responsible decision making reflect community needs and are based on principles of accountability, transparency, responsiveness and consultation.

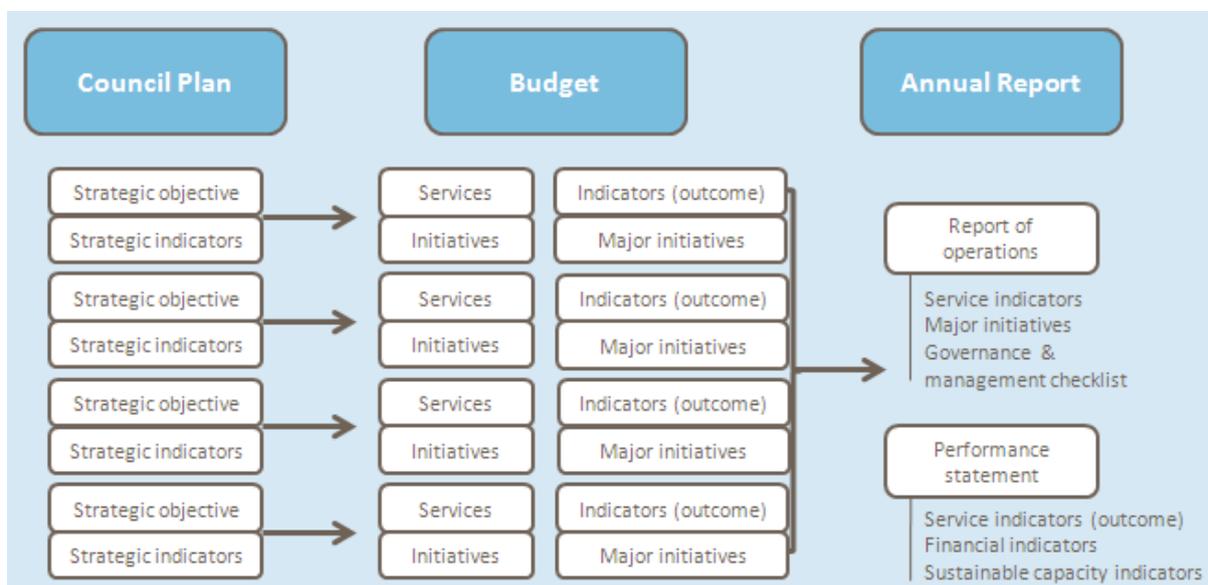

## 2. Services and service performance indicators

This section provides a description of the services, initiatives and major initiatives to be funded in the Budget for the 2021-22 financial year. In accordance with Section 94 of the *Local Government Act 2020* the services, initiatives and major initiatives are included within the Budget 2021-22.

Details are provided on how these services contribute to achieving the themes and strategic objectives specified in the Council Plan 2017-21, as set out in Section 1. Performance indicators to monitor achievement of the Council Plan 2017-21 strategic objectives are set out in the following pages\*.

*\*Please note these indicators will be supplanted by the strategic indicators outlined in the Council Plan 2021-25.*

The relationship between these accountability requirements in the Council Plan, the Budget and the Annual Report is shown below.

<b>Boroondara Community Plan Outcome Indicators</b>			
Overall participation in library services (includes loans, returns, visits, program attendances, e-books & audio loans, enquiries, reservations, Wi-Fi and virtual visits)	Boroondara Library Service has the largest physical collection of all public library services in the State with a physical turnover rate of 5.5 loans per item per annum.	7,600,000	Library Services
Participation in first MCH home visit (percentage of infants enrolled in the MCH service who receive the first MCH home visit)	This measure indicates the provision of MCH service in accordance with agreed standards.  There are instances when we receive a birth notification for a Boroondara resident, however the parents and their child may stay outside of Boroondara with relatives who provide support for the first few weeks. When this happens it is common for new parents to access the MCH service in the municipality where they are staying until they return to Boroondara. This means that the number of infants enrolled receiving their first home visit can fluctuate.	90%	Health and Wellbeing Services
Satisfaction with recreational facilities	Community Satisfaction survey conducted annually by Local Government Victoria.  In 2020, satisfaction with the appearance of recreational facilities was higher than the	79	Environmental Sustainability and Open Spaces  Health and Wellbeing Services

## Local Government Performance Reporting Framework - Indicators

Service	Indicator	Performance measure	Computation
Governance	Satisfaction	Satisfaction with Council decisions (community satisfaction rating out of 100 with how Council has performed in making decisions in the interest of the community).	Community satisfaction rating out of 100 with the performance of Council in making decisions in the interest of the community.

## 2.1 Performance Statement

The Service Performance Indicators detailed in the preceding pages will be reported on in the Performance Statement which is prepared at the end of the year as required by Section 98 of the Act and included in the 2021-22 Annual Report. The Performance Statement will also include reporting on prescribed indicators of financial performance (**Section 9 - Financial Strategy Principles**) and sustainable capacity (**Section 5 - Performance Indicators**). The prescribed performance indicators contained in the Performance Statement are audited each year by the Victorian Auditor-General who issues an audit opinion on the Performance Statement. The major initiatives detailed in the preceding pages will be reported in the Annual Report in the form of a statement of progress in the Report of Operations.

## 2.2 Priority Projects

Service delivery is enhanced by Council's Priority Projects. Priority Projects programs provide funding for short term projects or pilot initiatives. This allows Council to deliver on important issues for the community whilst from a financial perspective ensuring that project funding does not become part of the recurrent operating budget. It is another example of Council's commitment to financial sustainability, transparency and accountability.

In 2021-22 Priority Projects have been fully planned for the coming year and in addition details of projects foreshadowed over the next three years have been made available (refer to **Appendix C - Priority Projects Program**). The Priority Projects budget for 2021-22 includes projects that support all of Council's strategic objectives.

<sup>1</sup> General rates and waste charges excludes special rates as these are included in the net services and initiatives.

### 3. Summary of financial position

The summary provides key information about the rate increase, operating result, service levels, cash and investments, capital works and financial sustainability of Council. The following graphs include, 2020-21 forecast actual (F), 2021-22 Budget (B) and the next three years budget. Further detail is found within the body of the Budget report.

#### 3.1 Rate percentage increases

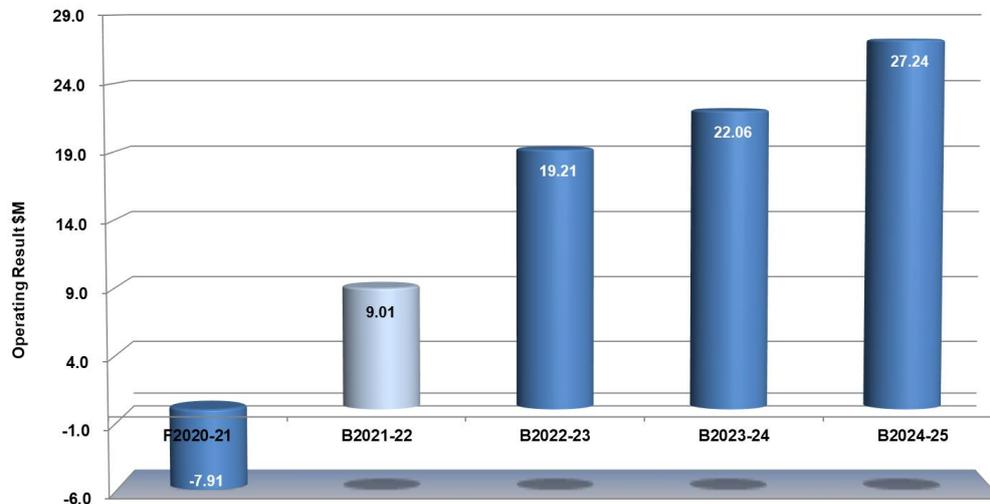

#### 3.2 Total rates and charges

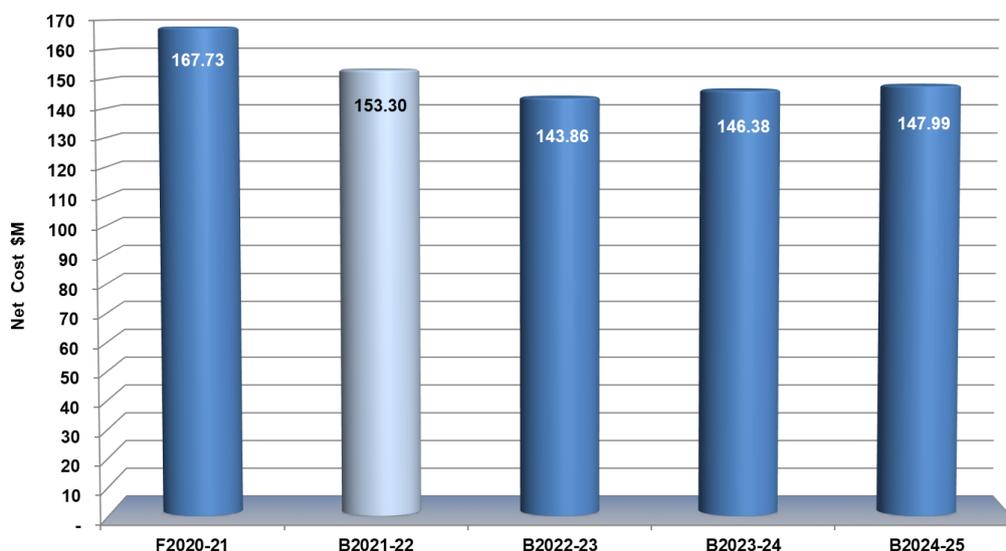

In 2021-22, rates will increase by 1.5%. Total rates and charges (including waste and interest) increase to \$197.67 million (3.5%) including \$900,000 generated from supplementary rates on new and redeveloped properties. In addition to the above, special rates and charges levied through special rate schemes will total \$1.57 million. The State Government introduced a cap on rate increases from 2016-17. The cap for 2021-22 has been set at 1.5% by the Minister for Local Government. Future years have been estimated using the Department of Treasury and Finance CPI forecasts. Recycling processing fees have also increased by \$25 per tonne, or \$581,000, after the former contractor ceased operations. In 2021-22 waste service charges will increase on average by 6.5% primarily due to the increase of the State Government Landfill Levy from 1 July 2021. The Victorian Government announced it will extend the deferral of the increase to the municipal and industrial landfill levy to 1 July 2021 (previously January 2021), which is set to increase in 2021-22 from \$65.90 to \$105.90 per tonne (an increase of \$1.04 million in 2021-22) and then to \$125.90 in 2022-23. **Refer Section 10, Council's Rating Information.**

### 3.3 Operating result

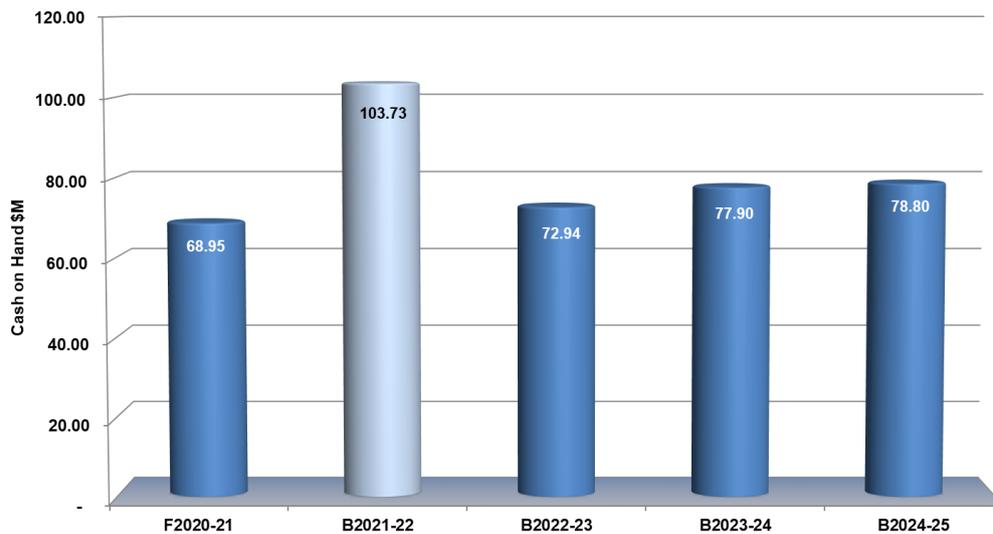

The expected operating result for the 2021-22 year is a surplus of \$9.01 million which is a \$16.92 million increase from the forecast deficit of (\$7.91 million) for 2020-21. The operating result and future years can vary depending upon the level of priority projects planned. **Refer to Appendix C - Priority Projects.** The adjusted underlying result which excludes items such as non-recurrent capital grants, non-cash contributions and cash capital contributions is a deficit of \$3.29 million, which is an increase of \$22.92 million over 2020-21. The forecast underlying result for the 2020-21 year is a deficit of \$26.21 million. The 2020-21 adjusted underlying result excludes capital grants and contributions totalling \$18.29 million. The 'surplus/(deficit)' is not a measure of 'profit' but provides capacity to fund future capital works.

### 3.4 Services

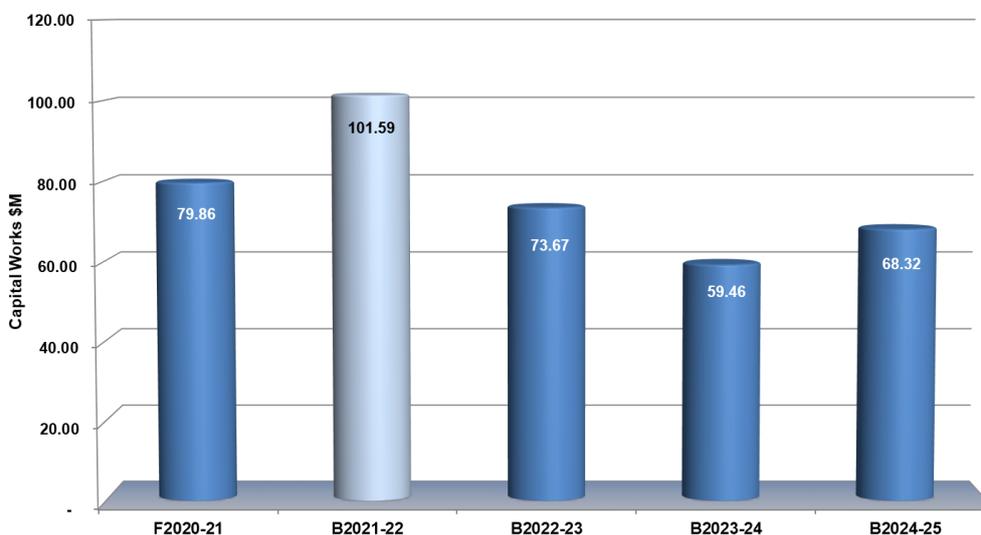

The net cost of services delivered to the community includes net operating directorate and department costs as well as net priority projects expenditure. For the 2021-22 year, the net cost of services delivered is expected to be \$153.30 million, a decrease of \$14.43 million over 2020-21. A number of new activities and initiatives have been proposed for the 2021-22 year.

### 3.5 Cash and investments

Cash and investments are budgeted to increase by \$34.78 million during the year to \$103.73 million for the year ending 30 June 2022. Loan borrowings of \$70 million will be taken up in the 2021-22 year to fund significant multi-year major projects including the Kew Recreation Centre and Canterbury Community Precinct. Total cash and investments are forecast to be \$68.95 million at 30 June 2021. Cash and investments are used to fund the capital works program and repay existing borrowings.

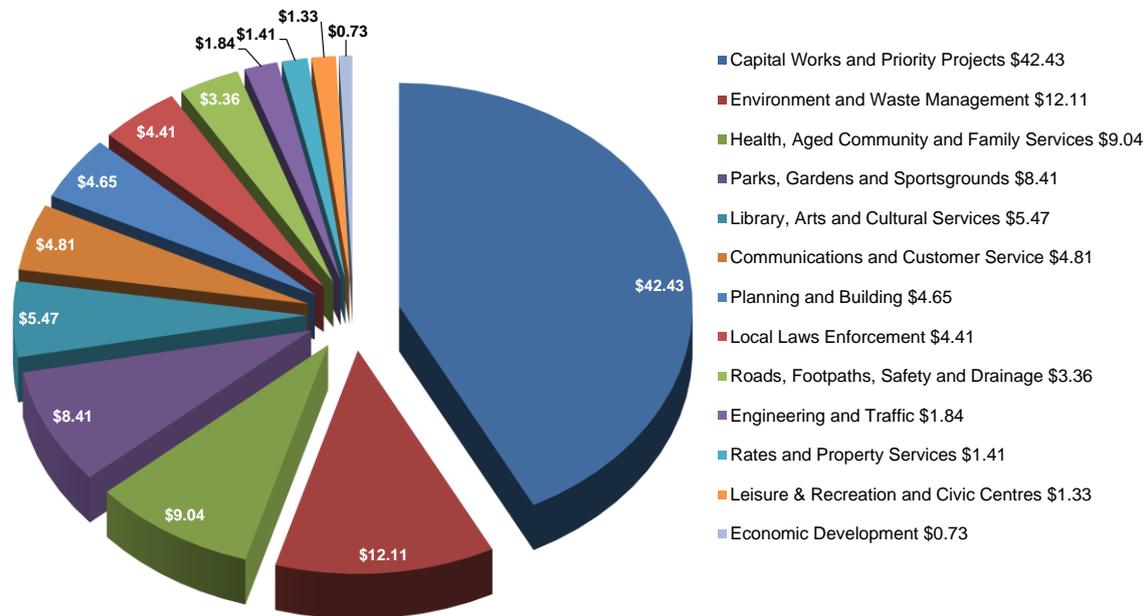

### 3.6 Capital Works Program (gross expenditure)

Council's commitment to capital works will reach \$101.59 million for the 2021-22 financial year. \$15.17 million relates to forward commitments from the 2020-21 year. The carried forward component is fully funded from the 2020-21 Budget. Loan borrowings of \$70 million will be taken up in the 2021-22 year to fund significant major projects including Kew Recreation and Canterbury Community Precinct. Capital funding of \$7.94 million has been derived from external sources due to successful grant applications. The Capital Works Program has been developed according to an extensive selection and prioritisation process. Council has committed to renewal expenditure of \$64.14 million and new, upgrade and expansion expenditure of \$37.44 million inclusive of forward commitments. Future year expenditure reflects Council's commitment to a number of new and upgraded facilities over the term of the four year budget. Refer also **Section 4** for the Statement of Capital Works.

### 3.7 Council expenditure allocations

The below chart provides an indication of how Council allocates its expenditure across the main services that it delivers. It shows how much is allocated to each service area for every \$100 that Council spends.

An allocation of corporate services, governance, risk management, building maintenance and public lighting has been included within these service areas.

As part of our commitment to improve our City's environmental sustainability, Council has allocated \$3.61 million to undertake a range of initiatives aimed at minimising our environmental footprint within these service areas.

Excludes operating expenditure for five externally managed recreation centres.

## 5. Financial performance indicators

The following table highlights Council's current and projected performance across a range of key financial performance indicators. These indicators provide a useful analysis of Council's financial position and performance and should be interpreted in the context of the organisation's objectives.

The financial performance indicators below are the prescribed financial performance indicators contained in Part 3 of Schedule 3 of the *Local Government (Planning and Reporting) Regulations 2020*. Results against these indicators will be reported in Council's Performance Statement included in the Annual Report.

Key to Forecast Trend:

+ Forecasts improvement in Council's financial performance/financial position indicator

o Forecasts that Council's financial performance/financial position indicator will be steady

- Forecasts deterioration in Council's financial performance/financial position indicator

## Notes to the indicators

1. **Adjusted underlying result:** An indicator of the sustainable operating result required to enable Council to continue to provide core services and meet its objectives. The adjusted underlying result for 2019-20 and 2020-21 are due to actual and estimated impacts of COVID-19 and the resulting impacts on revenue and expenditure streams. From 2021-22 the underlying result forecasts improvement over the four year projections. The 2021-22 budget includes forward commitments from 2020-21 primarily due to the impacts of COVID-19 affecting the timing and delay of some projects.
2. **Working capital:** The working capital ratio expresses Council's short term ability to meet its liquidity requirements within the current financial year. Ratios below or nearing 100% indicate that Council may not be able to meet short term liabilities. Current assets to liabilities continue to remain at a healthy level across all years indicating sufficient liquidity.
3. **Loans and borrowings:** Reflects the extent of reliance on rate revenue to fund all Council's ongoing services. The forecast trend indicates Council's take up of borrowings in 2021-22 to fund significant major projects.
4. **Indebtedness:** This indicator compares non-current liabilities to own source revenue. Own Source revenue is defined as adjusted underlying revenue that is not under the control of Council (excluding government grants).
5. **Asset renewal and upgrade:** This percentage indicates the extent of Council's capital renewal expenditure against total depreciation expenditure, which represents the decline in value of existing capital assets. A percentage greater than 100 indicates Council is renewing and maintaining existing assets, whilst a percentage less than 100 indicates assets are deteriorating faster than they are being renewed and will require future capital expenditure to renew assets back to their existing condition.

### 5.1 Performance Indicators

In accordance with the *Local Government Act 2020* Section 94, Council is required to report on its performance against a common suite of indicators. The measures included in the Service Performance, Financial Performance and Sustainable Capacity Indicator tables below will be reported upon in Council's Annual Report 2021-22. These indicators will form Council's Performance Statement and are required to be audited under Section 98 of this Act.

## Local Government Performance Measures for the year ending 30 June 2022

### Service Performance Indicators

Indicator	Description	Measure
<b>Governance</b>		
Satisfaction	Councils make and implement decisions in the best interest of the community.	Satisfaction with Council decisions (community satisfaction rating out of 100 with how Council has performed in making decisions in the interest of the community).
<b>Statutory Planning</b>		
Decision making	Planning application processing and decisions are consistent with the local planning scheme.	Council planning decisions upheld at VCAT (percentage of planning application decisions subject to review by VCAT that were not set aside).

Indicator	Description	Measure
<b>Roads</b>		
Satisfaction	Sealed local road network is maintained and renewed to ensure that it is safe and efficient.	Satisfaction with sealed local roads (community satisfaction rating out of 100 with how Council has performed on the condition of sealed local roads).
<b>Libraries</b>		
Participation	Library resources are free, accessible and well utilised.	Active library borrowers in municipality (percentage of the municipal population that are active library borrowers).
<b>Waste Collection</b>		
Waste diversion	Amount of waste diverted from landfill is maximised.	Kerbside collection waste diverted from landfill (percentage of garbage, recyclables and green organics collected from kerbside bins that is diverted from landfill).
<b>Aquatic Facilities</b>		
Utilisation	Aquatic facilities are safe, accessible and well utilised.	Utilisation of aquatic facilities (number of visits to aquatic facilities per head of municipal population).
<b>Animal management</b>		
Health and safety	Animal management service protects the health and safety of animals, humans and the environment.	Animal management prosecutions (percentage of successful animal management prosecutions).
<b>Food safety</b>		
Health and safety	Food safety service protects public health by preventing the sale of unsafe food.	Critical and major non-compliance outcome notifications (percentage of critical and major non-compliance outcome notifications that are followed up by Council).
<b>Maternal and Child Health</b>		
Participation	Councils promote healthy outcomes for children and their families.	Participation in the MCH service (percentage of children enrolled who participate in the MCH service).
		Participation in MCH service by Aboriginal children (percentage of Aboriginal children enrolled who participate in the MCH service).

## Financial Performance Indicators

Indicator	Description	Measure
<b>Operating position</b>		
Adjusted underlying result	An adjusted underlying surplus is generated in the ordinary course of business.	Adjusted underlying surplus (or deficit) (underlying surplus (or deficit) as a percentage of adjusted underlying revenue).
<b>Liquidity</b>		
Working capital	Sufficient working capital is available to pay bills as and when they fall due.	Current assets compared to current liabilities (current assets as a percentage of current liabilities).
Unrestricted cash	Sufficient cash that is free of restrictions is available to pay bills as and when they fall due.	Unrestricted cash compared to current liabilities (unrestricted cash as a percentage of current liabilities).
<b>Obligations</b>		
Loans and borrowings	Level of interest-bearing liabilities is appropriate to the size and nature of Council's activities.	Loans and borrowings compared to rates (interest bearing loans and borrowings as a percentage of rate revenue).
		Loans and borrowings repayments compared to rates (interest and principal repayments on interest bearing loans and borrowings as a percentage of rate revenue).
Indebtedness	Level of long term liabilities is appropriate to the size and nature of a Council's activities.	Non-current liabilities compared to own source revenue (non-current liabilities as a percentage of own-source revenue).
Asset renewal and upgrade	Assets are renewed as planned.	Asset renewal and upgrade compared to depreciation (asset renewal and upgrade expense as a percentage of depreciation).
<b>Stability</b>		
Rates concentration	Revenue is generated from a range of sources.	Rates compared to adjusted underlying revenue (rate revenue as a percentage of adjusted underlying revenue).
Rates effort	Rating level is set based on the community's capacity to pay.	Rates compared to property values (rate revenue as a percentage of the capital improved value of rateable properties in the municipality).
<b>Efficiency</b>		
Expenditure level	Resources are used efficiently in the delivery of services.	Expenses per property assessment (total expenses per property assessment).

Indicator	Description	Measure
Revenue level	Resources are used efficiently in the delivery of services.	Average residential rate per residential property assessment (residential rate revenue per residential property assessment).

### Sustainable Capacity Indicators

Indicator	Description	Measure
Own source revenue	Revenue is generated from a range of sources in order to fund the delivery of services to the community.	Own source revenue per head of municipal population (own source revenue per head of municipal population).
Recurrent grants	Revenue is generated from a range of sources in order to fund the delivery of services to the community.	Recurrent grants per head of municipal population (recurrent grants per head of municipal population).
Population	Population is a key driver of a Council's ability to fund the delivery of services to the community.	Expenses per head of municipal population (total expenses per head of municipal population).
		Infrastructure per head of municipal population (value of infrastructure per head of municipal population).
		Population density per length of road (municipal population per kilometre of local road).
Disadvantage	Disadvantage is a key driver of a Council's ability to fund the delivery of services to the community.	Relative Socio-economic Disadvantage (relative Socio-economic Disadvantage of the municipality).
Workforce turnover	Resources are used efficiently in the delivery of services.	Resignations and terminations compared to average staff (number of permanent staff resignations and terminations as a percentage of the average number of permanent staff).

## 6. Other budget information

This section presents other budget related information required by the Regulations. It includes the following statements and reports:

- Grants operating
- Grants capital
- Statement of borrowings.

### 6.1 Grants - operating (\$1.92 million decrease)

Grants include transfers received from State and Federal sources for the purpose of funding the delivery of Council's services to ratepayers. Operational grants are further classified according to whether they are received each year (recurrent) or received on a once off or short term basis (non-recurrent); refer to the table on the following page. Overall, the level of grant funding is budgeted to decrease by 14.3% or \$1.92 million compared to the 2020-21 forecast primarily due to:

Recurrent Operational Grants \$2.16 million decrease primarily due to:

- Victorian Local Government Grants Commission (VLGGC) - 50% or \$2.40 million of the 2021-22 allocation was brought forward to the 2020-21 financial year

Non-recurrent operating grants - \$239,000 increase primarily due to:

- Streetscape and transport grants associated with the North East Link \$1.46 million and removal of the Union Rd level crossing \$604,000

Partially offset by:

- Reduction in COVID-19 related grant funding to enable outdoor dining across the municipality \$500,000 and working for Victoria grant funding \$788,000 and;
- Reduction in Family & Children grants funding of \$213,000

Total operating grants, after adjusting for the Victorian Local Government Grants Commission, is expected to increase by 2.7%. The minor underlying increase in operating grants and subsidies indicates that the trend of grant income is not keeping pace with the expenditure levels required to deliver services to the community and as a result there is an increasing financial burden on Council and its ratepayers, i.e. a cost shift to local government from State and Commonwealth Governments.

A list of operating grants by type and source, classified into recurrent and non-recurrent is included below.

Operating grants	Forecast Actual 2020-21 \$'000	Budget 2021-22 \$'000	Variance \$'000

\* The Victorian Local Government Grants Commission (VLGGC) is expected to increase by 2.3% or \$110,000, in 2021-22.

## 6.2 Grants - capital (\$5.56 million decrease)

Capital grants include all monies received from State, Federal and community sources for the purposes of funding the Capital Works Program. The amount of capital grants received each year can vary significantly depending on the types of works included in the Capital Works Program. Capital grants are further classified according to whether they are received each year (recurrent) or received on a once off or short term basis (non-recurrent); refer table below. Overall, the level of capital grants is forecast to decrease by \$5.56 million compared to 2020-21.

Capital works income of \$7.93 million is budgeted in 2021-22, the most significant grants include:

- \$5.21 million from the *Commonwealth Government Local Roads and Community Infrastructure fund*
- \$720,000 - 2<sup>nd</sup> instalment of \$1.60 million for Canterbury Community Precinct from the *Department of Education and Training Grant*.
- \$593,811 from the *Commonwealth Government Roads to Recovery Program* covering roads pavement renewal works.
- \$300,000 from the *Department of Education and Training* for renewal works at Fordham Avenue Kindergarten
- \$300,000 from the *Department of Education and Training* to undertake renewal works at Through Road Childcare Centre
- \$300,000 from the *Department of Environment, Land, Water and planning* to undertake works at Victoria Park Regional Playground

A list of capital grants by type and source, classified into recurrent and non-recurrent is included below.

## 7. Detailed list of capital works

This section presents a listing of the capital works projects that will be undertaken for the 2021-22 year.

The expenditure provided for in each line item is the forecast or projected amount that Council will expend. The actual amount expended could be greater or lesser than the expenditure provided for. As each line item is part of the total capital expenditure being forecast or projected, Council intends that the expenditure authorised through the adoption of the Budget will be the total of the expenditure for the capital works program (regardless of whether, in respect of a particular project, the actual amount expended exceeds or is less than the expenditure that is shown).

The capital works projects are grouped by class and include the following:

- New capital works for 2021-22
- Works carried forward from the 2020-21 year

Regulation 7(1)(a) and (b) requires that the budget contain a detailed listing of capital works expenditure for the budget year and subsequent 3 financial years. As per Regulation 8(4)(a), a detailed list of planned capital works expenditure for the budget year in relation to non-current assets by class according to the Local Government Model Financial Report (LGMFR), classified separately as to asset expenditure type (i.e. renewal, new, upgrade and expansion).

In addition, the budget must also contain a summary of funding sources in relation to the capital works expenditure, classified separately as to grants, contributions, Council cash and borrowings as per Regulations 8(4)(b). As per Regulation 8(3)(a), a summary of planned capital works expenditure and funding sources for the subsequent 3 years set out according to asset expenditure type in accordance with the LGMFR. The disclosures in **Appendix D** reflect these requirements.

## 8. Rates and charges

This section presents information about rates and charges that the Act and the Regulations require to be disclosed in the Council's budget.

As per the *Local Government Act 2020*, Council is required to have a Revenue and Rating Plan which is a four year plan for how Council will generate income to deliver the Council Plan, program and services and capital works commitments over a four-year period.

In developing the Budget, rates and charges were identified as an important source of revenue, accounting for 78 percent of the total revenue received by Council annually. Planning for future rate increases has therefore been an important component of the financial planning process. The Fair Go Rates System (FGRS) sets out the maximum amount councils may increase rates in a year. For 2021-22 the FGRS cap has been set at 1.5%. The cap applies to both general rates and municipal charges and is calculated on the basis of council's average rates and charges.

The level of required rates and charges has been considered in this context, with reference to Council's other sources of income and the planned expenditure on services and works to be undertaken for the Boroondara community.

### 1 Rates and charges

Rates and charges are required by the Act and Regulations to be disclosed in Council's budget.

#### 1.1 The reconciliation of the total rates and charges to the Comprehensive Income Statement is as follows:

Type or class of land	Forecast	Budget 2021-22	Change \$	Change %
	Actual 2020-21			
General rates	161,745,660	165,514,722	3,769,062	2.3%

**1.12 There are no known significant changes, which may effect the estimated amounts to be raised by rates and charges. However, the total amount to be raised by rates and charges may be effected by:**

- The making of supplementary valuations
- The variation of returned levels of value (e.g. valuation appeals)
- Changes in use of land such that rateable land becomes non-rateable land and vice versa
- Changes in use of land such that non residential land becomes commercial land and vice versa.

**1.13 Differential rates**
**1.14 Rates to be levied under Section 161 and 161A of the Act**

Council has not raised rate income by levying rates under a differential rates scheme.

## 8.1 Properties rated under the Cultural & Recreational Lands Act 1963 (CRLA)

Under the CRLA, provision is made for a Council to effectively grant a rating concession to the holder of any “recreational lands” which meet the test of being “rateable land” under the Act. At the time of Budget there are five properties which are “recreational lands” under the CRLA.

Council will declare the rate equivalent amount for properties which have been identified as CRL properties” in accordance with Section 4 of the CRLA. The CRLA provides that “an amount be payable in lieu of rates in each year being such amount as the **municipal council thinks reasonable** having regard to the **services provided** in relation to such lands and having regard to the **benefit to the community** derived from such recreational lands”.

The eligible CRL properties listed below will be levied a rate equivalent payment and will be calculated for each of them as 50% of the general rates that would otherwise have been payable having regard to the services provided and the benefit to the community derived from them, at the times and in the manner prescribed by the CRLA.

The rate equivalent amount will apply and be payable from 2021-22, subject to an annual assessment each time a new valuation of the CRL properties is returned to Council (see Section 4(3) CRLA).

## Long Term Strategies

This section includes the following analysis and information:

9. Financial Strategy Principles
10. Rating information
11. Borrowing Strategy

## 9. Financial Strategy Principles

### 9.1 Long Term Financial Plan

A budget has been prepared for the four year period ending 30 June 2025. The Budget is in turn set within the Long Term Financial Plan to assist Council to adopt a budget within a longer term financial framework. The Financial Plan provides a 10 year financially sustainable projection regarding how the actions of the Council Plan may be funded to achieve the Community Vision. The Financial Plan is required to be adopted by 31 October following a general election.

The Budget is supported by the following series of Financial Strategy Principles that guide the planning of the Financial Plan.

### 9.2 Financial Strategy Principles

#### 9.2.1 Principles relating primarily to the operating budget:

##### ***Sustainable Budgeting Principle***

***Council will implement a sustainable budget and financial strategy that caters for short and long-term planning responsibilities.***

Community expectations are a key driver of the strategy, as reflected in the Council Plan, and Council strives to adequately resource current and future need across the City. Council has limited financial and non-financial resources and faces wide-ranging and complex community needs.

Council is committed to delivering an annual operating surplus to provide funds for capital projects and infrastructure renewal, for both current and future generations.

When identifying sources of revenue and determining expenditure needs, Council will ensure that these community needs can be adequately addressed in the future.

##### ***Rating Revenue Principle***

***Council will comply with the Victorian Government's rate capping legislation which limits rate increased to an amount set by the relevant Minister.***

A rating strategy included in the Revenue and Rating Plan that determines the allocation of rate contributions across the municipality will be considered by Council each term.

'Special Rate Schemes' may be used to provide direct benefits to clearly identified ratepayer groups, such as retail shopping centres.

##### ***Pricing of Services Principle***

***Council will set fees and charges for services having regard to Council's Pricing Policy and specific fee policies in applicable areas of Council, while incorporating cost recovery principles and marketplace competition. User capacity to pay, equity in the subsidisation of services, community service benefits, statutory or service agreement limitations, and results of benchmarking of similar services, also impact the striking of a fee or charge.***

Council will decide on the levels of cost recovery that are suitable for each service. The accurate measurement of costs, including overheads, enables identification of any level of subsidy provided to a service. This information further contributes to the pricing of services model.

Council does not have discretion to alter fees and charges set by the Victorian Government, however will continue to advocate for these fees to be set at levels where cost recovery is possible.

Where service fees provide a surplus, the funds will be used to maintain the general level of services in the City.

In order to maintain the relationship between the cost of a service and the fee charged for the provision of the service, in the absence of a public policy requirement, fees and charges will be

increased annually in line with either labour costs, Consumer Price Index inflation or direct cost increases.

Council considers pricing signals and/or price disincentives as legitimate methods to encourage behavioural changes consistent with relevant Council policies.

***Waste Management Principle***

***Council will use waste management pricing strategies that encourage waste avoidance, minimisation and recycling, and these will be supported by educational programs and appropriate services.***

The identification and separate billing for a waste service is intended to encourage and promote waste minimisation in the community.

Council seeks to recover costs for these services.

***Intergovernment Funding Principle***

***Council supports the Intergovernmental Agreement that requires other levels of government to fully fund services delivered on their behalf. Council will maximise the level of grants and subsidies received from Victorian and Australian Governments to achieve a better share of government taxes for the Boroondara community.***

Where cost shifting from other levels of government is apparent, Council will communicate to its community the impacts of these cost impositions. Access to growth grants revenue is critical to meet the demands of a growing economy.

Funds received from other levels of government will normally be expected to meet the full direct and indirect costs of providing those services. Council opposes cost shifting from other levels of government and may not contribute funding or assets to services that are the responsibility of other levels of government. In circumstances where Council provides a subsidy to a service, a determination will be made ensuring the contribution does not outweigh the community benefit.

***Employee Costs Principle***

***Council will attract and retain suitable staff through remuneration levels and workplace policies, while ensuring that there is effective and efficient management of staff costs and number of employees.***

The cost of employment is a major budget component in the provision of Council services. Council values committed staff and recognises their critical role to the wellbeing of the Boroondara community.

As articulated in Council's People Strategy, Council remains committed to the provision of fair pay, learning and development for staff and a workplace culture appropriate for an Employer of Choice.

***Priority Projects Expenditure Principle***

***Council will separately fund projects of a non-recurring operating nature.***

Priority projects that are not started or completed within the budget year are subject to future budget and planning considerations. These projects will be reassessed against any revised Council priorities.

***Management of Expenditure Principle***

***Council will review all Council expenditure. Fundamental to this process is community consultation and benchmarking of cost and quality standards of service and efficiency against like services in the public and private sectors.***

Ongoing commitment to a customer centric service model is integral to this principle.

Where possible, increased service levels, or increases in demand for a service, are to be provided or funded through productivity gains.

Ongoing service reviews will assess services in accordance with:

- a demonstrated community need
- stakeholder views
- access, equity of need and benefit to the community
- community expectation of service level and quality
- legislative imperatives
- identification of alternative providers, both public and private
- Council's capacity to provide the service
- the availability of Victorian or Australian Government funding
- budget priorities.

***Amended Budget Principle***

***Council will amend the Budget for internal management reporting purposes to ensure prudent and transparent budgeting and financial planning.***

Council will ensure a rigorous approach to budget management. The Budget will be amended where necessary following finalisation of the annual accounts.

Amended budgets enable Council to review and approve variances to revenue and expenditure resulting primarily from external factors, ensuring accountability and optimal budget control for management reporting purposes. Amendments to the adopted budget will be considered under the following circumstances:-

- additional income has been received
- reduction in income due to identified reasons
- transactions required subsequent to finalisation of end of year accounts
- expenditure increases matching additional income
- additional non discretionary expenses
- deferred expenditure
- sound accounting processes to meet audit requirements.

In the circumstance where additional cash surplus is identified (after taking into account cash requirements of future years), opportunities to reduce planned borrowings should be considered prior to allocation of new expenditure.

New expenditure identified (if any) should be considered within the overall priority listing of works across the City. This may include bringing forward foreshadowed works in a staged approach. Existing commitments of staff and project management resource will be considered to ensure deliverability prior to endorsement of additional expenditure.

The Annual Report will detail performance against the original Budget as adopted by Council as the Budget.

**9.2.2 Principles relating primarily to management of Council assets:**

***Asset Management Principle***

***Council will provide well-maintained community assets that are fit for their purpose and provide best possible community benefit. Council's budget and long-term strategy will commit, with specific budget provision, an appropriate level of expenditure to ensure ongoing asset maintenance and renewal.***

Council will plan and appropriately resource the necessary work on infrastructure to ensure that all assets are maintained fit for purpose. Accurate asset data and condition assessments will be drawn upon to inform the annual budgeting and works programs.

Asset management involves anticipating and managing risk and asset failures. Council is committed to increasing expenditure on asset renewal in order to sustainably manage its community

infrastructure. Appropriate expenditure is allocated to ensure that compliance and safety regulations are addressed for all assets.

The separate asset renewal component of total capital works expenditure will be based on needs identified in asset renewal plans that will include amounts sufficient to fund renewal of our assets to agreed standards as established in the asset management plans.

Each asset renewal obligation will be determined by the asset renewal provision based on the replacement cost and remaining useful life of the asset to meet minimum community standards established through the asset management plans.

Council will maintain a capital sustainability index of greater than one-to-one until the assets have reached standards defined in the asset management plans. The sustainability index is defined as the ratio of renewal expenditure on infrastructure assets compared to the annual depreciation expense incurred by these assets.

Council will seek the most effective community outcome from the application of asset renewal funds, which may not necessarily result in the replication of existing facilities, but could involve the adaptive re-use of an asset. In such circumstances, asset renewal funds will complement new and upgrade funding as appropriate.

#### ***Creating Community Assets Principle***

***Council will ensure that the community has access to required community infrastructure, located to meet community needs and city wide priorities and designed with regard to current and future needs.***

Construction and acquisition of new community assets must respond to existing needs, new identified needs or adopted strategies. Such facilities must remain within the limitations of Council's financial and resource capacity and provide clear and tangible benefits. Opportunities for community partnerships to develop assets will be pursued.

In reviewing any proposal, Council will consider the financial mechanisms available to assign the capital costs to current and future generations. Asset substitution can be a source of finance where a newly-created asset consolidates services and the vacated asset becomes available for sale.

Analysis of the creation of new assets will also consider contributions to the public realm, environmental and social benefits. The financial analysis will have regard to consequent operational maintenance and renewal costs.

#### ***Property Holdings Principle***

***Council will manage, acquire and dispose of property in the best interest of the Boroondara community. Council recognises the importance of property holdings over the long term to community wellbeing.***

Assets will only be considered for disposal where there is no clear Council or community need for that asset in the foreseeable future. All property considered for disposal will undergo a thorough evaluation based on both financial and community benefit factors. Open space will not be sold unless replaced by areas of equal size and/or value. Any proceeds derived from property realisation will be directed towards funding land acquisition, new/upgrade capital works or debt reduction and will not be used to fund operating expenditure. Council will not necessarily hold property that has no current or future identified purpose, or if that purpose can be met more effectively in other ways.

Existing holdings or strategic acquisitions must meet existing needs, new identified needs or adopted strategies. To enhance community benefit opportunities for the alternative use of property (including asset realisation) will be investigated.

Regular reviews of asset holdings will be conducted to identify opportunities for asset realisation. Asset management plans, asset usage, land use planning documents and community benefit will be considerations in such reviews.

### ***Council Reserves Principle***

***Council will maintain a series of cash backed reserves for use in predefined circumstances.***

Due to legislative limitations, local government is unable to undertake borrowings not pre-approved through the Budget process. For this reason Council will hold cash backed reserves for use in predefined circumstances.

Due to the nature of these funds, and potential for immediate use, the cash will not be considered as part of Council's internal budgeting and management reporting processes. They will be treated as a source of funds only available for the stated purpose. The only other potential use for these funds is the retirement of existing Council debt.

Until these funds are used for the stated purpose the cash contained within these reserves will be managed in line with Council's Investment Policy.

These reserves will be held as assets in Council's balance sheet and the cash within the fund will be available for the predefined purposes outlined in the below Strategic Acquisition Fund, Open Space Development Fund and the Defined Benefit Superannuation Fund.

#### *Strategic Acquisition Fund*

*A fund for the purpose of acquiring new assets.*

As strategic parcels of land may become available at short notice, Council has created a Strategic Acquisition Fund. This fund allows for the acquisition of strategic assets within the municipality as they become available.

The Strategic Acquisition Fund will be available for the purpose of acquiring new strategic assets where they are required for the provision of community services or for additional public open space.

#### *Open Space Development Fund*

*A fund for the purpose of acquiring land for use as public open space.*

As strategic parcels of land may become available at short notice, Council has created an Open Space Development Fund. This fund allows for the acquisition of land within the municipality for conversion to public open space as it becomes available.

#### *Defined Benefit Superannuation Fund*

*A fund for the purpose of meeting potential defined benefit superannuation calls as they arise.*

All councils in Victoria have a legal obligation to provide additional funds to the Local Government Defined Benefit Superannuation Fund (LGDBF) should a shortfall in the superannuation funds vested benefit index occur.

To ensure that services to the community are not otherwise affected and in order for Council to meet its obligations, Council has established its own Defined Benefit Superannuation Reserve for use should a call be made by the LGDBF trustee.

### ***Concept Master Plan Principle***

***Council will ensure that the short and long-term interests of the community are appropriately addressed. Concept Master Plans are an aid to future planning for the allocation of resources.***

Concept Master Plans do not represent a commitment to implement all components of the plan, which will be reviewed at regular intervals, and may be subject to change. The Concept Master Plan components will be considered annually as part of the budget process, in conjunction with all Council Plan and Budget priorities.

Concept Master Plans must inform asset management plans and future works planning.

### 9.2.3 Principles relating primarily to management of Council financial position:

#### ***Financial Principle***

***Council will fund all operating and capital expenditure in a prudent, ethical and responsible manner. Council will seek and accept external funding contributions to a project where the acceptance of the funding will not compromise Council's principles or objectives.***

Council will seek to maximise all external funding opportunities, including transfers from other levels of government and other financing opportunities where appropriate, and having regard to the financial impacts and outcomes for the community. Following the decision to proceed with a project, external funding commitments will be formalised through a Heads of Agreement.

While an external funding opportunity should be part of the overall project, its consideration should remain only one factor in the decision-making process. Accordingly, care should be taken to not inappropriately commit Council to the acceptance of funding opportunities before the project is determined as suitable and of immediate priority. This is necessary to avoid the unreasonable distortion of Council's priorities due to the availability of external funding.

Debt within prudent levels is considered to be a legitimate funding source, particularly for the creation of income-generating assets and new or extended assets servicing current and future generations.

Council will note and monitor the Victorian Auditor-General's Office (VAGO) Financial Sustainability Risk Assessment Criteria being:

- Net result
- Adjusted underlying result
- Liquidity
- Internal Financing
- Indebtedness
- Capital Replacement
- Renewal Gap

Council will endeavour to remain in the low risk category for these criteria in each year of the Long Term Financial Plan. In the case where operational or investment imperatives require, in a particular year(s), that one or more of these criteria will be assessed as a medium risk, Council's Long Term Financial Plan must demonstrate future capacity to recover to low risk status.

Council, unless faced by exceptional circumstances will not endorse decisions generating financial outcomes resulting in high risk outcomes according to these criteria.

#### ***Cash Management Principle***

***Council will monitor its Working Capital Ratio (current assets/current liabilities) to ensure the maintenance of the required level of cash to meet operational requirements.***

The target for the ratio will remain at or above 1.20 to 1 plus:

- the provision of a cash contingency of 0.5% of general rate revenue for works in response to emergency situations e.g. storm event, and
- cash held in Council's endorsed reserves (see Council's Reserves Principle).

Where operational or investment imperatives require, in a particular year(s), that the ratio falls below 1.20 to 1, Council's Long Term Financial Strategy must demonstrate future capacity to recover to the target level but Council should not fall below a level of 1:1 in any year.

Council will maximise the return on cash funds invested and ensure investment placements remain within ethical and legislative constraints.

Outstanding debtors will be converted to cash by adopting commercial practices and benchmarks.

## 10. Rating Information

This section of the Budget contains information on Council's foreshadowed rating levels including strategy development, assumptions underlying the current year rate increase and rating structure.

### 10.1 Rating context

The *Local Government Act 2020* requires each Council to prepare a Revenue and Rating Plan to cover a minimum period of four years following each Council election. The Revenue and Rating Plan establishes the revenue raising framework within which the Council proposes to work. The plan is an important part of Council's integrated planning framework, all of which is created to achieve our vision in the Boroondara Community Plan (incorporating the Municipal Public Health and Wellbeing Plan).

In developing the budget, rates and charges were identified as an important source of revenue. Rate revenue continues to be the major income stream for most local governments. In reviewing comparative data, Boroondara receives less government grant assistance and is more dependent on rate revenue than many other local governments. Rates and charges comprise 76% of total income in 2021-22.

While government grants total \$13.46 million in 2021-22, all but \$2.40 million are tied grants which require Boroondara to perform a service on behalf of the State or Federal government. In most cases the tied grants do not adequately fund the service provided and additional rate revenue is required to subsidise these services. This is known as cost shifting to local government and is widely recognised across the sector as a major issue.

Boroondara does not benefit from untied grants to the same extent as most other local governments in Victoria. Many grants are adjusted by State and Federal Governments on the basis of capacity to pay and other socio-economic factors and therefore Boroondara is one of the lowest recipients with grant income equivalent to \$21.03 per resident in Boroondara (*Source 2020-21 Victorian Local Government Grants Commission Annual Allocation Report*).

### 10.2 Current year rates and charges

The 2021-22 operating position is predicted to be impacted by a number of external and internal influences, wage rises, general inflation increases, and new service initiatives. The general rate will increase by 1.50% and the waste collection costs will increase on average by 6.5% in 2021-22. This will raise total rates and charges for 2021-22 of \$198.64 million, including \$900,000 generated from supplementary rates. This amount also includes special rates and charges of \$1.57 million.

Waste service charges are set at a level that recovers the costs associated with the provision of waste services. Council also levies rates through special rate schemes and as a result of supplementary valuations.

The below table highlights the indicative rate increase over the forward four year period. These forward indexes are indicative only and are reviewed on an annual basis and are subject to change. The projections for 2023-2026 includes base rate increases aligned to the proposed rate cap which is determined by the Victorian Government. The future years are estimates using Department of Treasury and Finance forecasts of the consumer price index.

Year	Rate increase %
2022	1.50%
2023	1.75%
2024	2.00%
2025	2.00%
2026	2.00%

### 10.3 Rate in the dollar

The City of Boroondara's 2021-22 Budget provides for a decrease in the rate in the dollar paid by ratepayers, a reduction from 0.13851685 cents in the dollar to 0.13720849 cents in the dollar.

A property in Boroondara at the median residential valuation in 2020 was valued at \$1,380,000 with a general rate of \$1,911.53. The new median valuation for 2021 according to the Victorian Valuer General is \$1,400,000 and now attracts a general rate of \$1,920.92, an increase in 2021-22 of \$9.39 per year or \$0.18 per week.

### 10.4 Rating structure

In accordance with the *Local Government Act 1989*, the method by which local governments are able to raise rate revenue is through use of valuations on properties within their municipalities.

Council rates are levied on the Capital Improved Value (CIV) of properties as determined by and certified by the Valuer General of Victoria. The Valuer General of Victoria has taken over the rateable property general valuation process from 1 July 2018 changing it to once a year rather than every two years.

The rating structure consists of one uniform rate for both residential and business property. These rates are structured in accordance with the requirements of Section 160 'Uniform Rate' of the Act.

Type or class of land	Forecast 2020-21 cents/\$CIV	Budget 2021-22 cents/\$CIV	Change
General rate for rateable residential properties	0.13851685	0.13720849	-0.9%
General rate for rateable non residential properties	0.13851685	0.13720849	-0.9%

### 10.5 Cultural and Recreational Lands (CRL)

Under the CRLA, provision is made for a Council to effectively grant a rating concession to the holder of any "recreational lands" which meet the test of being "rateable land" under the Act. At the time of Budget there are five properties which are "recreational lands".

Council will declare the rate equivalent amount for properties which have been identified as CRL properties" in accordance with Section 4 of the CRLA. The CRLA provides that "an amount be payable in lieu of rates in each year being such amount as the **municipal council thinks reasonable** having regard to the **services provided** in relation to such lands and having regard to the **benefit to the community** derived from such recreational lands".

The eligible CRL properties will be levied a rate equivalent payment and will be calculated for each of them as 50% of the general rates that would otherwise have been payable. The rate equivalent amount will apply and be payable from 2021-22, subject to an annual assessment each time a new valuation of the CRL properties is returned to Council (see Section 4(3) CRLA). Please refer to **Section 8 - Rates and Charges** for list of eligible CRL properties.

All CRL properties will be liable to pay Fire Services Property Levy, and will be required to pay waste charges as and when they utilise Council's waste service.

Type or class of land	Budget 2020-21 cents/\$CIV	Budget 2021-22 cents/\$CIV
Rate concession - rateable Cultural and recreational	0.00000000	0.06860425

## 10.6 General revaluation of properties

Boroondara City Council has moved from biennial to annual valuations in line with the state government changes introduced from 1 July 2018. The valuation function is now centralised with the Valuer-General. A revaluation of all properties within the municipality was undertaken during the 2020-21 year. The revaluation date was 1 January 2021 and the value assessed will be applied to all rateable properties for the financial year 2021-22.

The outcome of the 2021 general revaluation has been a moderate change in property valuations throughout the municipality. Overall, property valuations across the municipal district have increased by 2.47%. Of this increase, residential properties have increased by 2.70% and non-residential properties have decreased by 0.83%.

The following tables summarise the valuation changes between the 2020 and 2021 general revaluations for all property types including analysis by suburb.

## 10.7 Waste Management Strategy

In 2017, Council adopted a revised Waste Minimisation and Recycling Strategy. The key objectives of this strategy are to reduce the amount of waste deposited at landfills maximising recycling and achieve sustainable environmental outcomes by providing best practice services to the Boroondara community. An implementation plan has been developed setting out actions, priorities and resources required.

The following waste bin charges will apply in 2021-22:

Household waste bin size (landfill)	2020-21 charge	2021-22 charge
Waste environment levy residential and other	\$113.00	\$120.00
Waste environment levy commercial	\$113.00	\$120.00
80 litre & minimum waste charge residential and other	\$245.00	\$261.00
80 litre commercial	\$245.00	\$261.00
120 litre residential and other	\$447.00	\$477.00
120 litre commercial	\$447.00	\$477.00
240 litre <b>2020-21</b> - (only for residential properties with four people) <b>2021-22</b> - (only for residential properties with four or more people in a household)	\$1,089.00	\$1,160.00
240 litre commercial (only for commercial properties)	\$1,089.00	\$1,160.00
240 litre concession <b>2020-21</b> - (concessional fee for residential properties with 5 or more people in the household OR a specific medical condition) <b>2021-22</b> - (concessional fee for residential properties with a specific medical condition)	\$894.00	\$954.00

From 1 July 2021, the 240 litre bin concessional fee will no longer be offered to residential households with 5 or more people in the household. The concessional fee will only apply for residential properties with a specific medical condition. The waste bin charge for those properties qualifying for the concession will be \$954. Council continues to retain the availability of the 240 litre bin option to households of four or more people in the 2021-22 Budget at a waste charge of \$1,160.

The net costs of waste management and associated services are recovered by Council through the waste management charges.

Costs considered in waste charges are waste to landfill (inclusive of taxes and levies), food organics and green organics waste service, the recycling service, hard-waste collection, operation of the Riversdale Road Transfer Station, Clayton Landfill, delivery of street sweeping services, public place waste and recycling services, and provision of waste collection in public parks, gardens, sportsgrounds and community buildings, bin renewal requirements, disposal of electronic waste and waste management resources and overheads. Waste bin fees and transfer station tipping fees have been set to recover the full costs of all of these services.

The 2021-22 Budget proposes an average increase of 6.5% in waste charges (inclusive of the Victorian government landfill levy) which is linked directly to the cost of providing the waste services, priced on a full cost recovery basis.

The Victorian Government announced it will extend the deferral of the increase to State Government Landfill Levy to 1 July 2021 (previously January 2021) as part of an acknowledgment of COVID-19 impacts. The landfill levy is expected to increase by 60.6% or \$40.00 per tonne from \$65.90 to \$105.90 per tonne (an increase of \$1.04 million 2021-22) and then to \$125.90 in 2022-23. The levy changes are part of the State Government's Recycling Victoria package, a 10-year action plan to transition our waste and recycling sectors and encourage more recycling and reduce waste to landfill. Recycling processing fees have also increased by \$25 per tonne, or \$581,000, after the former contractor ceased operations.

There has been an increase in waste tonnage across all streams throughout 2020 which has been attributed to behaviour changes resulting from COVID-19, primarily working and schooling from home and online shopping. An increase of 10,900 tonnes or \$1.23 million (total 40,000 tonnes for 2021-22) for Food Organics Green Organics (FOGO) compared to 2020-21 (29,000 tonnes) due to a higher utilisation of the service and the rollout of the FOGO service to multiple unit dwellings during the 2020-21 financial year. Whilst this represents a diversion of waste provided to landfill, the increase in the landfill levy is also accounted for in the residual waste.

## 10.8 Rate payment options

In 2021-22, Boroondara will offer a wide range of options for the payment of rates and waste charges. Council has granted a 2.00% discount for early payment in full by 31 August 2021 of the rates bill.

Payment options include:

- One lump sum payment, with a 2.00% discount on the total rates bill, if payment is made in full, at the reduced amount, by 31 August 2021.
- One lump sum payment, in full, by 15 February 2022 (note, direct debit is available for this option).
- Four instalments, with payments required on 30 September, 30 November, 28 February, and 31 May. Direct debit option is also extended to the four instalments.
- A direct debit (interest free) payment plan. This plan provides for payment to be made by 10 monthly direct debits from your nominated bank. Full details of all payment options will be provided to ratepayers when rate notices are issued.

## 10.9 Late payment of rates

Where rates are not paid in full by the due instalment or lump sum payment date, Council is authorised to charge penalty interest on outstanding amounts at the penalty interest rate of 10% which is set by the state government and reviewed annually.

## 10.10 Rates and charges deferment and financial hardship

Council has a Rates and Charges Deferment and Financial Hardship Policy in place to provide assistance to ratepayers experiencing difficulty in paying their rates and charges. The policy is to enable a person liable for rates and charges and experiencing hardship, to make application to Council for assistance relating to rates and charges levied on a property under the *Local Government Act 1989*.

Where a ratepayer incurs late payment penalty interest and is eligible for the State Government Pensioner Rate Rebate, the penalty interest rate to apply shall be equal to Council's 2021-22 weighted average investment earning rate. Council's current weighted average investments earning rate as at 31 March 2021 was 0.36% per annum.

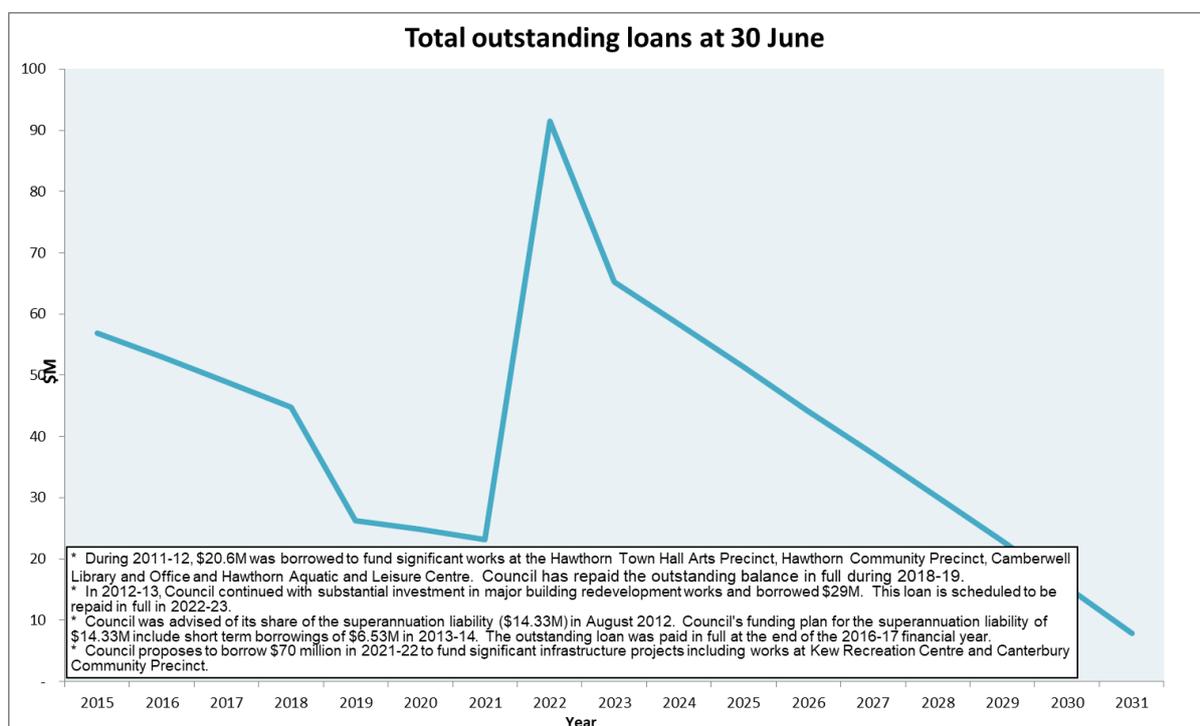

## 11. Borrowing Strategy

In developing the four year budget, borrowings have been identified as a funding source for the creation of income generating assets and assets servicing current and future generations. The following provides information on Council's existing and future planned loan portfolio.

### 11.1 Introduction

During the 2012-13 financial year borrowings of \$29 million were undertaken to fund major building works. The borrowings was at a fixed interest rate for 10 years, and the long term financial strategy provides for payment of the remaining balance in full at that time.

In 2014-2015, Council reviewed its existing loan portfolio and took the opportunity to refinance long term debt to a four year loan. This provided decreased interest rates and interest savings to the community as well as providing increased financial capacity to enable future infrastructure programs.

### 11.2 Future Borrowing Strategy

The borrowing strategy is to retire existing debt over time to free up capacity to undertake new borrowings for significant infrastructure projects for the community. Council's borrowing strategy allows for the investment in new infrastructure as well as the timely retirement of debt.

Council proposes to borrow \$70 million in 2021-22 to fund significant infrastructure projects including works at Kew Recreation Centre and Canterbury Community Precinct.

An assessment of alternative borrowing strategies will be conducted for each tranche of planned borrowings as they become due.

### 11.3 Existing borrowings

During the 2019-20 year \$1.49 million in principal repayments on existing borrowings have been made. The outstanding amount borrowed will be \$24.75 million as at 30 June 2020. The projected cost of servicing these borrowings will be \$1.42 million during 2019-20.

The following table sets out future proposed borrowings, based on the forecast position of Council as at 30 June 2020. The table also shows the results of prudential ratios that have previously been issued by the Victorian State Government.

Council is projected to be at low risk as defined by VAGO's financial sustainability risk indicator of Indebtedness and Liquidity through the entire period of the Draft Long Term Financial Plan as shown below.

Council monitors its Adjusted Working Capital Ratio (current assets/current liabilities) to ensure the maintenance of the required level of cash to meet operational requirements.

Council targets an adjusted working capital ratio of 1.2 to 1. The adjusted working capital ratio excludes Council adopted reserves which are funds held for a specific purpose and as such are not available for normal business operations (see **Section 9 Financial Strategy Principles** for further details). Where operational or investment imperatives require, in a particular year(s), that the ratio falls below the target, Council's Long Term Financial Plan must demonstrate future capacity to recover to the target level. The above table projects, that Council will achieve this outcome by 2031 as set out in Council's Draft Long Term Financial Plan which is current being finalised and will be adopted by 31 October 2021.

The table below shows information on borrowings specifically required by the Regulations.

## Overview to appendices

The following appendices include voluntary and statutory information which provide support for the analysis contained in Sections 1 to 11 of this report.

This information has not been included in the main body of the Budget report in the interests of clarity and conciseness. Council has decided that whilst the Budget report needs to focus on the important elements of the Budget and provide appropriate analysis, the detail upon which the Budget is based should be provided in the interests of open and transparent local government.

The contents of the appendices are summarised below:

## Appendix A - Fees and Charges

### Introduction

The City of Boroondara provides a range of services to the community. Some of these services have an associated fee or charge levied.

Services funded by fees and charges provide enhanced community wellbeing. Council's Financial Strategy Principle on the Pricing of Services requires that *fees and charges for services be set having regard to specific policies in applicable areas of Council, whilst incorporating cost recovery principles and marketplace competition.*

Council's Pricing Policy ensures that fees are set in line with community support objectives in mind. When setting fees and charges factors considered include the users capacity to pay, equity in the subsidisation of services, community service obligations, statutory or service agreement limitations and results of benchmarking of similar services.

Council has considered that where cost recovery principles are adopted, fees and charges that have a substantial labour component in the delivery of the service be increased by the expected increase in labour costs. In 2021-22 this means that many fees and charges are increased by an average of 1.55%. This attempts to maintain the relationship of funding between user fees and general rate subsidy for each service.

Fees that do not contain a labour component to deliver the service are proposed to generally increase on average by inflation (forecast to be 1.25% in 2021-22).

Council user fees and charges are subject to change and will be amended in line with any increases determined by Council throughout the 2021-22 year.

Where fees are set by State Government statute (Statutory Fees); Council has no ability to alter the fee. These fees are fixed and result in a growing cost to the general ratepayer to provide services as the level of cost recovery is diminished over time. Fees will be amended in line with any increases should one be determined by State Government over the course of the 2021-22 year.

### **Waste Services - Charges**

The fees for the provision of commercial and residential waste services are set at full cost recovery. The costs considered in waste charges are waste to landfill (inclusive of taxes and levies), food organics and green organics waste service, the recycling service, hard-waste collection, operation of the Riversdale Road Transfer Station, Clayton Landfill, delivery of street sweeping services, public place waste and recycling services, and provision of waste collection in public parks, gardens, sportsgrounds and community buildings, bin renewal requirements, disposal of electronic waste and waste management resources and overheads.

The 2021-22 Budget includes an average increase of 6.5% in waste charges (inclusive of the Victorian government landfill levy) which is linked directly to the cost of providing the waste services, priced on a full cost recovery basis.

From 1 July 2021, the 240 litre bin concessional fee will no longer be offered to residential households with 5 or more people in the household. The concessional fee will only apply for residential properties with a specific medical condition. The waste bin charge for those properties qualifying for the concession will be \$954. Council continues to retain the availability of the 240 litre bin option to households of four or more people in the 2021-22 Budget at a waste charge of \$1,160.

The Victorian Government announced it will extend the deferral of the increase to State Government Landfill Levy to 1 July 2021 (previously January 2021) as part of an acknowledgment of COVID-19 impacts. The landfill levy is expected to increase by 60.6% or \$40.00 per tonne from \$65.90 to \$105.90 per tonne (an increase of \$1.04 million 2021-22) and then to \$125.90 in 2022-23. The levy changes are part of the State Government's Recycling Victoria package, a 10-year action plan to transition our waste and recycling sectors and encourage more recycling and reduce waste to landfill.

Recycling processing fees have also increased by \$25 per tonne, or \$581,000, after the former contractor ceased operations.

There has been an increase in waste tonnage across all streams throughout 2020 which has been attributed to behaviour changes resulting from COVID-19, primarily working and schooling from home and online shopping. An increase of 10,900 tonnes or \$1.23 million (total 40,000 tonnes for 2021-22) for Food Organics Green Organics (FOGO) compared to 2020-21 (29,000 tonnes) due to a higher utilisation of the service and the rollout of the FOGO service to multiple unit dwellings during the 2020-21 financial year. Whilst this represents a diversion of waste provided to landfill, the increase in the landfill levy is also accounted for in the residual waste.

### **Changes to GST Status**

For GST purposes Council's fees and charges are currently subject to the following Australian Taxation Office (ATO) regulations as defined by:

*A New Tax System (Goods and Services Tax) (Exempt Taxes, Fees and Charges) Determination 2011 (No. 1).*

The GST legislation deems that Council's fees and charges are to include GST (taxable supply) unless they are identified for specific exemption from GST.

This determination under Section 81-5 of the *GST Act* identifies those Council fees and charges that are exempted from GST. The application of GST to the schedule of fees and charges is therefore based on current ATO legislation.

Council may be required to further amend the GST status of specific fees and charges when the ATO approves and issues further legislation or regulations. The impact of further ATO amendments may therefore require Council to alter prices in this schedule to reflect changes in the GST status of particular goods or services.

The full list of fees and charges is provided in the following pages. Some fees and charges may have different percentage increases due to rounding to improve ease of use or cash handling.

Appendix B  
Community  
Leases

## Appendix B - Community leases

This appendix presents a listing of proposed community leases that trigger section 115 of the *Local Government Act 2020*.

Section 115 of the *Local Government Act 2020* provides for the following:

### **115 Lease of land**

- 1) *A Council's power to lease any land to any person is limited to leases for a term of 50 years or less.*
- 2) *Subject to any other Act, and except where section 116 applies, if a Council leases any land to any person subject to any exceptions, reservations, covenants and conditions, it must comply with this section.*
- 3) *A Council must include any proposal to lease land in a financial year in the budget, where the lease is—*
  - (a) *for one year or more and—*
    - (i) *the rent for any period of the lease is \$100,000 or more a year; or*
    - (ii) *the current market rental value of the land is \$100,000 or more a year; or*
  - (b) *for 10 years or more.*
- 4) *If a Council proposes to lease land that is subject to subsection (3) and that was not included as a proposal in the budget, the Council must undertake a community engagement process in accordance with the Council's community engagement policy in respect of the proposal before entering into the lease.*

The proposed community leases, set out in the table, are consistent with Council's Council Assets - Leasing and Licensing Policy 2017.

The proposed leases are also consistent with the Council Plan 2017-21 and the Boroondara Community Plan 2017-27 in particular strategies 1, 2, 4 and 5 regarding communication and engagement, community inclusion, families and young people and health, ageing and disability.

Particular Themes are:

Theme 1: Your Community, Services and Facilities - Community services and facilities are high quality, inclusive and meet a variety of needs now and into the future.

Theme 7: Civic Leadership and Governance - Ensure that ethical, financial and socially responsible decision making reflects community needs and is based on principles of accountability, transparency, responsiveness and consultation.

Market rental valuations have been provided by Council's in house Senior Valuer and all rentals proposed to be charged are in accordance with Council's Council Assets - Leasing and Licensing Policy, a copy of which is located on Council's website [www.boroondara.vic.gov.au](http://www.boroondara.vic.gov.au)

Provision of buildings under an appropriate lease agreement enables the various tenants to continue to provide services to the Boroondara community.
