

Windella Avenue Reserve Playground Replacement

The design is now complete!

Thanks for your feedback! The playground design has been developed to include the community's most popular requests.

The new playground offers new play opportunities for all ages and abilities and provides a balance of physical (traditional) play equipment, nature based play and imaginary play opportunities with new tree and shrub planting.

Race on the twin slides, climb the spider's web and check out the cubby!

What we heard...

Basket swing for all abilities

Sensory play is great!

Mini in-ground trampoline

Natural shade would be great!

More enjoyable for all ages!

Proposed play elements

- 1 Basket Swing (All Ability) with rubberised surface surround
- 2 Multi-play unit with: wave slide, twin slide, 0.9-1.5m height timber platforms, monkey bars, spider web, track glider, fire pole, binoculars, rock wall and more. A rubberised path leading to this unit enables access for people of all abilities.
- 3 Mini in-ground trampoline with rubberised surface surround
- 4 Spinner
- 5 See-saw rocker
- 6 Existing swings
- 7 Nature play with: horizontal balance logs, log steppers and balance boulders
- 8 Timber frame cubby adjacent to new garden bed plantings

Playground Concept Plan

Note: All equipment and surface treatments shown subject to final budget review and site conditions
