

Water and waterways

Corporate action

3.1 Develop a new Integrated Water Management (IWM) infrastructure program: a prioritised plan to develop and implement new IWM projects (stormwater treatment, harvesting and reuse, litter management).

Time frame: 22/23

Climate action plan linkage: This aligns with action 3.3 and supports the target that Council harvests 65 ML of alternative water per annum.

3.2 Construct Councils next priority Water Harvesting Project – nominally at Macleay Park subject to community consultation in 2021/22.

Time frame: 22/23

Climate action plan linkage: This aligns with actions 3.2 and 3.7 and supports the target that Council harvests 65 ML of alternative water per annum.

3.3 Conduct an annual program of water efficiency retrofits.

Time frame: Ongoing

Climate action plan linkage: This action will improve water efficiency across Council buildings.

Policy and advocacy action

3.4 Develop a program of winter irrigation of parks and open space using surplus water from our current and future raingardens and water harvesting facilities.

Time frame: 21/22 22/23

Climate action plan linkage: This aligns with action 3.13.

2.7 Develop a cleaner building site program, targeting sediment runoff from development sites, and an engagement and enforcement program.

Time frame: 22/23

Climate action plan linkage: This aligns with actions 3.6 and 3.12 and will prevent sand, soil, cement and other building materials from reaching waterways, resulting in a healthier environment.
