

Water and waterways

Corporate action

3.1 Develop a new Integrated Water Management (IWM) infrastructure program: a prioritised plan to develop and implement new IWM projects (stormwater treatment, harvesting and reuse, litter management).

Time frame: 22/23

Climate action plan linkage: This aligns with action 3.3 and supports the target that Council harvests 65 ML of alternative water per annum.

3.2 Construct Councils next priority Water Harvesting Project – nominally at Macleay Park subject to community consultation in 2021/22.

Time frame: 22/23

Climate action plan linkage: This aligns with actions 3.2 and 3.7 and supports the target that Council harvests 65 ML of alternative water per annum.

Policy and advocacy action

3.4 Develop a program of winter irrigation of parks and open space using surplus water from our current and future raingardens and water harvesting facilities.

Time frame: 21/22 22/23

Climate action plan linkage: This aligns with action 3.13.

3.3 Conduct an annual program of water efficiency retrofits.

Time frame: Ongoing

Climate action plan linkage: This action will improve water efficiency across Council buildings.

3.5 Develop a cleaner building site program, targeting sediment runoff from development sites, and an engagement and enforcement program.

Time frame: 22/23

Climate action plan linkage: This aligns with actions 3.6 and 3.12 and will prevent sand, soil, cement and other building materials from reaching waterways, resulting in a healthier environment.
