

Hi there, My name is Andrew Galani and i am working for Boroondara council and we are currently conducting our yearly data on vacant / empty properties, these include but not limited to; properties that are completely empty, properties that aren't lived in, properties that are abandoned / neglected, places that are going to be demolished, Please send an email to [REDACTED]@gmail.com with any empty properties you know of.

FAQ: How do i know if a property is empty or not lived in? If the residents haven't been there for a extended amount of time or if it's completely unfurnished not lived in or possibly the owner/s are deceased.

Does the property have to be within Boroondara council? No, we are doing the data all over Victoria but starting within the area of Boroondara council.
