INSTALLATION NOTES:

- Ensure bin is level by altering adjustable feet so that bin door can open fully where the footpath is not level. Where footpath is not level, distance between pavement and lowest edge of bin to be 25mm (max.) on the high side of the slope.
- Concrete footing and all connections to be installed as per Manufacturer's specification.
- All bins to be placed parallel with back of kerb.
- All bin locations are to be marked out for approval by the Superintendent prior to installation.

Refer to Manufacturer's specification for footing and installation details.
